Easy Trails for My Senior Adventure Dog

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Gentle adventures for the senior dog: walking down a ramp from the van, an easy paved lakeside path, a bench rest, slow sniffs in the flowers and a soft bed back in the van.

TIMELINE

0-5s	Ramp from the van
5-10s	Flat lakeside path
10-15s	Bench rest
15-20s	Slow sniffs
20-25s	Soft bed in the van

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male white German Shepherd with a slightly thinner, faintly cream-tinted white coat, cloudy eyes, a little stiff and slow but happy, wearing a faded grey harness over a tan leather collar. 0-5s (Ramp from the van): Paved lakeside parking lot, soft morning daylight. The sage green camper van with no writing or logos has its side door open and a folding grey dog ramp set against it. The dog carefully walks down the ramp one step at a time, the owner's hand hovering beside him. Sound: paws on the ramp, birds, owner says "easy, take your time". 5-10s (Flat lakeside path): Smooth flat paved path along a calm lake, mild overcast daylight, reeds at the water's edge. The dog walks at a gentle pace beside the owner's sneakers, a little stiff in his back legs, tail wagging slowly. A few ducks float far out on the flat water, and green grass lines the edge of the path. The owner keeps the leash loose and matches his pace. Sound: ducks quacking far away, slow steady footsteps. 10-15s (Bench rest): Wooden bench beside the lakeside path, soft overcast light. The owner sits on the bench and the dog lies down on the grass at her feet, resting his chin on her shoe and watching the water with his cloudy eyes. Her hand rests on his shoulder while ducks paddle slowly far out on the lake. Sound: water lapping, dog's content sigh, owner says "nice rest". 15-20s (Slow sniffs): Grassy edge of the path with small white clover flowers, mild daylight. The dog sniffs the flowers slowly and thoroughly, nose working, taking his time, while the owner waits patiently with the leash loose. Soft overcast daylight falls on the grass and the calm lake behind him. His tail wags gently as he moves from one clover patch to the next. Sound: bees buzzing, sniffing, owner says "all the time you want". 20-25s (Soft bed in the van): Inside the parked sage green camper van, afternoon daylight through the window. The dog lies on a thick orthopedic dog bed with a soft blanket, eyes closing, while the owner's hand gently rubs his grey-white muzzle. A folded grey blanket and his water bowl sit beside the bed. Soft afternoon light falls through the van window across his cream-tinted coat. Sound: quiet van, soft snoring starting, owner whispers "still my adventure buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
