Welcome to the Puppies Hub

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quick hello from the puppy in five small moments: waking up in his bed, trotting to the camera, exploring the patio, chewing his rope toy and dozing off at the owner's feet.

TIMELINE

0-5s	Peekaboo hello
5-10s	Trots to camera
10-15s	Patio sniff
15-20s	Rope toy chew
20-25s	Dozes off

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Peekaboo hello): Living room, late morning, soft daylight from a side window, a grey couch and a woven rug. The puppy lies curled inside a round tan dog bed. He lifts his head, blinks sleepily at the camera, gives a big stretch with his front paws pushed forward and wobbles out of the bed onto the rug. Sound: quiet room, a squeaky puppy yawn, owner whispers "good morning". 5-10s (Trots to camera): Hallway with a light wood floor, sneakers lined up by the front door, natural daylight from a small window. The camera is held low near the floor. The puppy trots toward it on clumsy oversized paws that slip a little, ears flopping, tail wagging, and sniffs the phone up close. Sound: paws pattering on wood, collar tag jingle, owner laughs "hi buddy". 10-15s (Patio sniff): Small back patio, overcast daylight, grey concrete pavers with patchy grass at the edge and a plastic watering can nearby. The owner's legs in jeans stand right beside the puppy. He sniffs along the pavers, steps onto the grass with a careful high step, then sits down suddenly with his back legs splayed. Sound: birds, a distant car, light sniffing. 15-20s (Rope toy chew): Living room floor, afternoon daylight, beige carpet with a few toys scattered around. The puppy lies on his belly holding a short blue and white rope toy between his big front paws, chewing one knotted end, tilting his head and tugging it with small playful shakes. Sound: soft puppy growls, rope rustling on carpet. 20-25s (Dozes off): Same living room, late afternoon, a lamp switched on in the corner and fading daylight at the window. The puppy lies on the rug beside the owner's socked feet, eyes slowly closing, his chin sliding down onto his paw. His side rises and falls as he drifts off to sleep. Sound: quiet breathing, a tiny sigh, owner whispers "welcome to the Puppies Hub".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Peekaboo hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room, late morning, soft daylight from a side window, a grey couch and a woven rug. The puppy lies curled inside a round tan dog bed. He lifts his head, blinks sleepily at the camera, gives a big stretch with his front paws pushed forward and wobbles out of the bed onto the rug. Sound: quiet room, a squeaky puppy yawn, owner whispers "good morning".

Clip 2 | 5-10s | Trots to camera

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
