Eyes Opening for the First Time

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy at three weeks with brand-new open eyes, discovering his world: first blinks, looking at mom, meeting a hand, seeing his littermates and drifting back to sleep.

TIMELINE

0-5s	First blinks
5-10s	Looks at mom
10-15s	Sees a hand
15-20s	Littermates nearby
20-25s	Back to sleep

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 3-week-old male liver-and-tan German Shepherd puppy, tiny and round, eyes just open, short fuzzy chocolate-brown and tan fur, a brown nose, tiny folded ears, a thin light blue ribbon around his neck. 0-5s (First blinks): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft morning daylight from a curtained window. The tiny puppy lies on his belly on the fleece, slowly blinking his small cloudy blue eyes open, his round head bobbing a little as he tries to focus on the light. Sound: quiet room, tiny squeaks, owner whispers "look at those eyes". 5-10s (Looks at mom): Same whelping box, soft morning daylight. The mother, an adult female black-and-tan German Shepherd with a red collar, lies on her side along the fleece blanket. The puppy lifts his wobbly head toward her face and blinks, and she gently sniffs the top of his head with her nose. Sound: mom's slow breathing, puppy squeaks. 10-15s (Sees a hand): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, morning daylight. The owner's hand lies flat and still on the blanket close to the puppy. He stares at it with his new eyes, shuffles forward a few inches on his belly and sniffs the fingertips, his tiny brown nose twitching. Sound: quiet sniffing, owner whispers "hi little one". 15-20s (Littermates nearby): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft daylight. The puppy lies beside three sleeping littermates, small black-and-tan and liver-and-tan puppies with thin colored ribbon collars, all in a loose pile. He lifts his head, blinks around at them, then nestles his face against the nearest one's back. Sound: sleepy squeaks, blanket rustling. 20-25s (Back to sleep): Same whelping box in the spare room, curtains now drawn, a dim bedside lamp switched on. The puppy lies curled against the belly of his mother, an adult female black-and-tan German Shepherd with a red collar. His eyelids droop and close, and his little paws twitch once before he settles. Sound: quiet breathing, faint house hum.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First blinks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 3-week-old male liver-and-tan German Shepherd puppy, tiny and round, eyes just open, short fuzzy chocolate-brown and tan fur, a brown nose, tiny folded ears, a thin light blue ribbon around his neck. Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft morning daylight from a curtained window. The tiny puppy lies on his belly on the fleece, slowly blinking his small cloudy blue eyes open, his round head bobbing a little as he tries to focus on the light. Sound: quiet room, tiny squeaks, owner whispers "look at those eyes".

Clip 2 | 5-10s | Looks at mom

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
