First Wobbly Steps

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The three-week-old puppy learns to walk in the whelping box: pushing up, first steps, toddling to a hand, bumping into mom and flopping down worn out.

TIMELINE

0-5s	Pushes up
5-10s	First steps
10-15s	Tries again
15-20s	Mom watches
20-25s	Tired out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 3-week-old male liver-and-tan German Shepherd puppy, tiny and round, eyes just open, short fuzzy chocolate-brown and tan fur, a brown nose, tiny folded ears, a thin light blue ribbon around his neck. 0-5s (Pushes up): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft afternoon daylight from a window. The tiny puppy lies flat on his belly, then pushes up on his front legs with his back legs splayed out behind him, his round head bobbing as he tries to find his balance. Sound: tiny grunts, blanket rustling. 5-10s (First steps): Same whelping box, afternoon daylight on the cream fleece. The puppy gets all four legs under him and takes three wobbly steps forward, his round belly almost touching the blanket, then tips gently over onto his side and lies there blinking up at the camera. Sound: soft squeak, owner whispers "you did it". 10-15s (Tries again): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft daylight. The owner's hand rests flat on the blanket a short distance ahead of the puppy. He stands up again, sways from side to side, and toddles a few shaky steps toward the hand, sniffing the air with his little brown nose. Sound: quiet room, little sniffs. 15-20s (Mom watches): Same whelping box, afternoon light. The mother, an adult female black-and-tan German Shepherd with a red collar, lies along one side of the box, watching. The puppy wobbles toward her and bumps his head softly into her front leg, and she lowers her nose to sniff him calmly. Sound: mom's soft huff, puppy squeak. 20-25s (Tired out): Whelping box in the spare room, near evening, the daylight dimmer and a corner lamp switched on. The puppy lies flat on his belly on the cream fleece with all four legs stretched out, completely worn out, eyes half closed, his little sides rising and falling quickly. Sound: fast little breaths, faint house hum.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Pushes up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 3-week-old male liver-and-tan German Shepherd puppy, tiny and round, eyes just open, short fuzzy chocolate-brown and tan fur, a brown nose, tiny folded ears, a thin light blue ribbon around his neck. Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft afternoon daylight from a window. The tiny puppy lies flat on his belly, then pushes up on his front legs with his back legs splayed out behind him, his round head bobbing as he tries to find his balance. Sound: tiny grunts, blanket rustling.

Clip 2 | 5-10s | First steps

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
