First Taste of Puppy Mush

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy's first solid food at three weeks: a saucer of soaked kibble mush, a cautious sniff, a paw in the bowl, littermates joining in and mom cleaning his face.

TIMELINE

0-5s	Mush arrives
5-10s	First sniff
10-15s	Paw in the bowl
15-20s	Littermates join
20-25s	Mom cleans up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 3-week-old male liver-and-tan German Shepherd puppy, tiny and round, eyes just open, short fuzzy chocolate-brown and tan fur, a brown nose, tiny folded ears, a thin light blue ribbon around his neck. 0-5s (Mush arrives): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft morning daylight. The owner's hand sets a shallow white saucer of soupy puppy mush, soaked puppy kibble mashed with warm water, down on a clean towel spread inside the box. The tiny puppy lifts his head and sniffs the air. Sound: saucer tapping the towel, owner says "breakfast time". 5-10s (First sniff): Same whelping box with a towel on the cream fleece, morning daylight. The puppy wobbles up to the saucer and sniffs the rim, his little brown nose touching the mush. He pulls back, licks his nose and blinks in surprise. Sound: little sniffs, a lick, owner laughs softly. 10-15s (Paw in the bowl): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft daylight. The puppy leans in to lick the mush and one front paw slips right into the saucer. He stands there with his paw in the food, lapping clumsily, mush smeared across his chin. Sound: messy lapping, owner says "oh no". 15-20s (Littermates join): Same whelping box, morning light. Two littermates with thin colored ribbon collars, one black-and-tan and one liver-and-tan, wobble over and lick the saucer beside the puppy. All three lap messily side by side, little tails sticking up. A smear of mush sits on the towel and the cream fleece around the saucer. Sound: lapping, tiny squeaks, saucer sliding. 20-25s (Mom cleans up): Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft daylight. The mother, an adult female black-and-tan German Shepherd with a red collar, gently licks the mush off the puppy's chin and face while he sits still, eyes squeezed shut, his round belly full and a smear of mush still on one paw. Sound: gentle licking, owner whispers "thanks mom".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Mush arrives

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 3-week-old male liver-and-tan German Shepherd puppy, tiny and round, eyes just open, short fuzzy chocolate-brown and tan fur, a brown nose, tiny folded ears, a thin light blue ribbon around his neck. Whelping box in a quiet spare room, low wooden sides, clean cream fleece blankets, soft morning daylight. The owner's hand sets a shallow white saucer of soupy puppy mush, soaked puppy kibble mashed with warm water, down on a clean towel spread inside the box. The tiny puppy lifts his head and sniffs the air. Sound: saucer tapping the towel, owner says "breakfast time".

Clip 2 | 5-10s | First sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Puppy mush day: 10 percent eaten, 90 percent worn.
Who's cleaning this up? Mom, apparently.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
