Littermates Tug of War

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A backyard tug of war between the puppy and his sister: finding the rope, the grab, the tug, a topple and a shared rest while mom watches.

TIMELINE

0-5s	Rope found
5-10s	Sister grabs
10-15s	The tug
15-20s	Topple
20-25s	Shared rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Rope found): Fenced backyard, overcast morning daylight, patchy green grass and a weathered wooden fence. The puppy trots over to a short knotted rope toy lying on the grass and picks up one end in his mouth, tail wagging, then turns toward the camera holding it proudly. Sound: birds, collar tag jingle. 5-10s (Sister grabs): Same backyard, overcast daylight. A black-and-tan littermate with a thin pink ribbon collar trots in and grabs the other end of the rope. The two puppies stand facing each other on the grass, both holding the rope, tails up and wagging. Sound: soft growls, grass rustling. 10-15s (The tug): Backyard with patchy grass, overcast light. The puppy plants his oversized paws and pulls backward with little shakes of his head while his sister tugs the other way. Both growl softly in a playful way, the rope stretched tight between them. Sound: playful puppy growls, owner says "pull!". 15-20s (Topple): Same backyard, overcast daylight. The sister gives a hard tug and the puppy topples over onto his side on the grass, still holding the rope in his mouth. He scrambles back up quickly and grabs it again, ears flopping. A plastic garden chair and a coiled hose sit near the fence behind them. Sound: a soft thump, owner laughs. 20-25s (Shared rest): Backyard by the wooden fence, overcast daylight, shady grass. Both puppies lie side by side panting, the rope between them, each chewing one end lazily. The mother, an adult female black-and-tan German Shepherd with a red collar, rests on the grass nearby, watching calmly. Sound: panting, distant traffic, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Rope found

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
