Littermates Explore the Backyard

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The litter's first big backyard outing: hopping down the step, sniffing the grass, chasing a leaf, following mom and resting in the shade.

TIMELINE

0-5s	Out the door
5-10s	Grass sniffing
10-15s	Leaf chase
15-20s	Follows mom
20-25s	Shady rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Out the door): Back door step leading to a small fenced yard, bright spring morning daylight, patchy grass and a wooden fence. The owner's hand holds the screen door open and the puppy and two littermates with thin colored ribbon collars hop carefully down the low step onto the grass, one by one. Sound: screen door creak, birds chirping. 5-10s (Grass sniffing): Backyard, bright morning daylight, short uneven grass with a few dandelions. The puppy sniffs along the ground with his nose down and ears flopping forward, while a black-and-tan littermate sniffs a dandelion nearby. He sneezes and shakes his head. The owner's sandaled feet stand right beside him on the grass. Sound: a tiny sneeze, birds, owner laughs. 10-15s (Leaf chase): Same backyard, morning sunlight, a light breeze. A dry brown leaf skitters across the patchy grass and the puppy pounces at it clumsily, misses, and rolls onto his side. A littermate with a pink ribbon collar trots over to sniff the leaf. Sound: leaf rustling, breeze, little paws. 15-20s (Follows mom): Backyard near the wooden fence, morning daylight. The mother, an adult female black-and-tan German Shepherd with a red collar, walks slowly across the grass beside the puppies. The puppy trots after her tail, trips over a tuft of grass and catches himself, then keeps following. Sound: paws on grass, collar jingle, distant dog barking. 20-25s (Shady rest): Backyard under a small tree, dappled morning shade on the grass. The puppy and his littermates lie in the cool shade beside the owner's sandaled feet, panting gently, the puppy rolling onto his back to scratch it on the grass. Sound: panting, leaves rustling, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
