# Weigh-In Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

### VIDEO IDEA

Weekly weigh-in in the kitchen: lifted carefully, sitting on a baby scale with hands around him, a wiggly moment, cuddled off the scale and waiting with his brother.

### TIMELINE

| | |
|---|---|
| **0-5s** | Lifted up |
| **5-10s** | On the scale |
| **10-15s** | Wiggly moment |
| **15-20s** | Lifted off |
| **20-25s** | Brother's turn |

### MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Lifted up): Kitchen with a folded soft towel on top of a flat baby scale on the counter, its display turned away from the camera, morning daylight from a window over the sink. The owner's two hands carefully lift the puppy from the floor, one under his chest and one under his bottom. Sound: kitchen hum, owner says "weigh-in time". 5-10s (On the scale): Same kitchen, morning daylight. The puppy sits on the towel on the baby scale, the owner's hands cupped loosely around his sides the whole time. He wiggles, sniffs the towel and looks up at the camera with his floppy ears. Sound: towel rustling, a little whine. 10-15s (Wiggly moment): Kitchen counter, morning light. The puppy tries to stand and step off the scale, and the owner's hands gently hold him in place, one hand wrapped around his chest. He licks the owner's thumb and sits back down on the towel. Sound: owner laughs "hold still", tiny licks. 15-20s (Lifted off): Kitchen, morning daylight from the window. The owner's two hands lift the puppy off the scale and hold him snugly against the owner's chest in a grey hoodie. He nuzzles into the fabric and his tail wags against the owner's arm. Sound: fabric rustling, happy snuffles. 20-25s (Brother's turn): Kitchen floor, beige tile, morning daylight. The puppy sits on the floor next to a liver-and-tan littermate with a thin yellow ribbon collar, both looking up at the counter. The puppy scratches his ear with a back paw and topples sideways. Sound: paws on tile, owner says "you're next".

### AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Lifted up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
