Ribbon Collar Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every pup gets a color: ribbons laid out, a light blue ribbon tied on, a scratch at it, matching littermates and a proud little strut.

TIMELINE

0-5s	Ribbons out
5-10s	Light blue ribbon
10-15s	Scratch at it
15-20s	Matching littermates
20-25s	Proud strut

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Ribbons out): Living room floor, morning daylight from a window, a soft blanket spread on the beige carpet. The owner's hand lays several thin colored ribbons on the blanket in a row. The puppy waddles over and sniffs them one by one, tail wagging. Sound: ribbons rustling, sniffing. 5-10s (Light blue ribbon): Same living room, morning daylight. The owner's two hands gently tie a thin light blue ribbon loosely around the puppy's neck, matching his collar, while he sits on the blanket. He tilts his head and tries to look down at it. Sound: owner says "blue for you", soft whine. 10-15s (Scratch at it): Living room blanket, morning daylight. The puppy sits and scratches at the new ribbon with a back paw, wobbling as he balances, then gives up and shakes his whole body so his floppy ears flap against his head. A few loose ribbons are still lying on the blanket beside him. Sound: ear flaps, collar tag jingle. 15-20s (Matching littermates): Living room blanket, morning light. Three littermates sit near the puppy, each wearing a thin ribbon collar in pink, green or yellow, one black-and-tan and two liver-and-tan. The puppy sniffs his sister's pink ribbon and she licks his nose. A grey couch and a window with thin curtains sit in the background. Sound: little squeaks, owner laughs. 20-25s (Proud strut): Living room carpet, morning daylight. The puppy trots toward the camera with his light blue ribbon bouncing at his neck, ears flopping, and stops at the owner's knees in jeans to lick the owner's hand. A grey couch and scattered toys show behind him in the soft window light. Sound: paws on carpet, owner says "so handsome".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ribbons out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
