20-25s	Zoomies

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Muddy paws): Back door entryway, beige tile floor and a rubber doormat, overcast afternoon daylight. The puppy stands on the mat with muddy front paws and a bit of dirt on his chin after playing outside, wagging his tail and looking up at the camera. Sound: rain dripping outside, owner sighs "look at you". 5-10s (Paw wipe): Same entryway, overcast daylight. The owner kneels and holds one of the puppy's front paws gently in one hand while wiping it with a warm damp washcloth held in the other. The puppy watches, then tries to mouth the cloth. Sound: soft wiping, playful nibble sounds. 10-15s (Face wipe): Entryway with beige tile, overcast daylight. The owner's hand cups the puppy's chin gently while the other hand wipes his face softly with the warm damp cloth. He squints, sneezes and then licks his nose. The rubber doormat and a pair of muddy rain boots sit behind him. Sound: a tiny sneeze, owner laughs. 15-20s (Towel rub): Entryway, overcast light from the back door window. The owner wraps the puppy loosely in a small dry blue towel on the floor and rubs him gently with both hands. Only his head pokes out, ears flopping and fur sticking up. Sound: towel rustling, little grumbles. 20-25s (Zoomies): Hallway with a light wood floor, overcast daylight. The puppy wiggles free of the towel and does a short burst of wobbly zoomies down the hallway and back, slipping a little, then sits by the owner's feet panting happily. Shoes are lined up along the wall and the blue towel lies crumpled behind him. Sound: paws skidding, panting, owner laughs "all clean".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
