Last Day With His Littermates

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

One last full day with the whole litter: a morning puppy pile, one more chase, a long sniff from mom, a messy group photo and a final cuddle.

TIMELINE

0-5s	Morning pile
5-10s	One more chase
10-15s	Mom's sniff
15-20s	Group photo try
20-25s	Final cuddle

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Morning pile): Laundry room playpen with a washable mat on a grey tile floor, early morning daylight from a small window. The puppy and three littermates with thin colored ribbon collars sleep piled together, the puppy in the middle with his chin resting on a sister's back. Sound: quiet breathing, a soft yawn. 5-10s (One more chase): Fenced backyard, soft morning daylight, patchy grass and a wooden fence. The puppy and a black-and-tan littermate with a green ribbon collar chase each other in a short wobbly loop, then bump shoulders and tumble onto the grass together. The owner's sneakers stand at the edge of the frame on the grass. Sound: playful yips, birds. 10-15s (Mom's sniff): Backyard near the wooden fence, morning light. The mother, an adult female black-and-tan German Shepherd with a red collar, lowers her head and sniffs the puppy from his ears to his tail while he stands still, his tail wagging slowly. Sound: sniffing, a soft huff. 15-20s (Group photo try): Backyard, morning daylight on the grass. The puppy and three littermates sit roughly in a row in front of the camera, one wandering off, one scratching an ear, the puppy looking straight at the camera with his head tilted. The wooden fence and a garden hose coiled on the ground show behind them. Sound: owner says "everybody look here", laughter. 20-25s (Final cuddle): Living room, late afternoon daylight, a fleece blanket on the carpet in front of a grey couch. The puppy and two littermates lie asleep pressed together on the blanket while the owner's hand rests gently on all three, softly stroking their backs. Sound: quiet breathing, owner whispers "I'll miss this".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning pile

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
