Saying Goodbye to Mom

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm, sweet goodbye before the puppy leaves: resting with mom, a last wash, nose to nose, picked up gently and one last look back.

TIMELINE

0-5s	Resting together
5-10s	Last wash
10-15s	Nose to nose
15-20s	Picked up
20-25s	Last look

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Resting together): Living room with a grey couch, soft morning daylight from a window. The mother, an adult female black-and-tan German Shepherd with a red collar, lies on a large dog bed. The puppy lies curled against her front legs, both resting calmly with their eyes half open. Sound: quiet room, slow breathing. 5-10s (Last wash): Same living room, morning daylight. The mother, a black-and-tan German Shepherd with a red collar, licks the top of the puppy's head several times with slow gentle strokes. He leans into her, eyes half closed, his tail giving a small wag. Sound: gentle licking, soft sigh. 10-15s (Nose to nose): Living room, morning daylight. The owner kneels beside the dog bed. The puppy stands and touches noses with his mother, a black-and-tan German Shepherd with a red collar, both sniffing softly. She gives a small calm huff and lays her chin back down. Sound: soft sniffing, a calm huff. 15-20s (Picked up): Living room, morning light from the window. The owner's two hands gently lift the puppy, one under his chest and one under his bottom, and hold him close. The mother, a black-and-tan German Shepherd with a red collar, watches calmly from her bed, ears relaxed. Sound: fabric rustling, owner whispers "say bye to mom". 20-25s (Last look): Front hallway by the door, shoes on a mat, morning daylight. The camera looks down at the puppy held against the owner's chest in a grey sweatshirt. He peers back over the owner's arm toward the living room, where his mother lies calmly on her bed. Sound: door keys jingling, a tiny whine.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Resting together

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Saying goodbye to mom was the hardest part.
She was so calm about it. I was not.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
