## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Rubbed on mom): Living room, soft morning daylight from a window. The owner's hand gently rubs a soft grey plush teddy toy along the side of the mother, an adult female black-and-tan German Shepherd with a red collar, who lies calmly on her bed and sniffs it. Sound: soft fabric rubbing, owner says "for your boy". 5-10s (Pup sniffs toy): Same living room, morning light on the beige carpet. The owner's hand sets the plush teddy down in front of the puppy. He sniffs it all over carefully, then nudges it with his nose and wags his tail. A grey couch and a sunny window show in the background. Sound: sniffing, tail thumping carpet. 10-15s (Into the crate): A different bedroom at night, a small bedside lamp on, a wire crate with a soft blanket inside on a wooden floor. The puppy steps into the open crate and drags the plush teddy into the back corner by one ear. Sound: crate rattling softly, quiet house. 15-20s (Snuggle): Same bedroom, dim lamp light. The puppy lies down in the crate curled around the plush teddy, his chin resting on its head, eyes blinking slowly as he settles into the blanket. The owner's hand rests on top of the crate. Sound: a sleepy sigh, owner whispers "goodnight". 20-25s (Morning hug): Same bedroom, early morning grey daylight through window blinds. The puppy wakes up in the crate still cuddled against the plush teddy, stretches with a big yawn and looks toward the camera, tail thumping on the blanket. A pair of slippers sits on the wooden floor beside the crate. Sound: big yawn, tail thumps, birds outside.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
