Puppy Yawns

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A day of puppy yawns in five places: in a lap, mid-chew on the rug, on the back porch, at the crate at bedtime and in a big morning stretch.

TIMELINE

0-5s	Lap yawn
5-10s	Mid-chew yawn
10-15s	Porch yawn
15-20s	Bedtime yawn
20-25s	Morning stretch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Lap yawn): Living room sofa with a knit throw, late morning daylight. The puppy sits in the owner's lap, the owner's hands resting around him, and opens his mouth in a huge squeaky yawn, his small pink tongue curling up at the end. Sound: a squeaky yawn, owner laughs softly. 5-10s (Mid-chew yawn): Living room rug, afternoon daylight from a window. The puppy lies on his belly chewing a rubber chew toy, pauses, and lets out a wide yawn that tips his head back, then blinks and goes back to chewing. A few scattered toys and the edge of a grey couch show behind him. Sound: chewing, a long yawn. 10-15s (Porch yawn): Back porch with wooden boards, cool early evening daylight, a yard of patchy grass beyond. The puppy sits beside the owner's sneakers watching the yard, then yawns so big his ears pull back, ending with a little squeak. A garden hose lies coiled on the grass near the wooden fence. Sound: crickets, a distant car, a squeak. 15-20s (Bedtime yawn): Bedroom at night, a soft bedside lamp on, a wire crate with a fleece blanket on a wooden floor. The puppy stands in the open crate door and gives a long yawn with a tongue curl before turning in a circle to lie down. Sound: quiet house, a long yawn. 20-25s (Morning stretch): Same bedroom, early morning daylight through blinds. The puppy walks out of the crate and stretches, front legs forward and bottom up, then finishes with a big yawn and a full body shake that makes his ears flap. The open crate with its rumpled fleece blanket sits behind him on the wooden floor. Sound: ear flaps, collar jingle, birds outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lap yawn

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room sofa with a knit throw, late morning daylight. The puppy sits in the owner's lap, the owner's hands resting around him, and opens his mouth in a huge squeaky yawn, his small pink tongue curling up at the end. Sound: a squeaky yawn, owner laughs softly.

Clip 2 | 5-10s | Mid-chew yawn

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
