Tiny Paws Close-Up

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A close look at the puppy's paws: sleeping paw pads, toe beans curling, little feet on tile, careful steps in the grass and a paw resting in the owner's palm.

TIMELINE

0-5s	Paw pads
5-10s	Toe beans
10-15s	Walking paws
15-20s	Grass steps
20-25s	Paw in hand

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Paw pads): Living room sofa, soft afternoon daylight from a window. The puppy lies asleep on his back across the owner's lap, the owner's hand resting on his chest. Close view of his paw pads, pink and dark brown, his tiny toes curling slightly. Sound: quiet breathing, owner whispers "look". 5-10s (Toe beans): Same sofa, afternoon light. The owner's fingertip gently touches one of the puppy's paw pads and his toes spread and curl in his sleep, then he stretches his leg out long and relaxes again. His floppy ears spread out on the knit throw and his belly rises and falls slowly with each breath. Sound: soft sleepy grunt. 10-15s (Walking paws): Kitchen with a beige tile floor, morning daylight. The camera is held low near the floor and follows the puppy's paws as he walks, fuzzy tan feet with little nails tapping the tile, one paw stepping slightly sideways. A knit throw is bunched up on the grey sofa cushion under him. Sound: nails clicking on tile. 15-20s (Grass steps): Backyard with patchy grass, overcast daylight. A low close view of the puppy's front paws stepping carefully through the grass, lifting high with each step, then pawing at a clover leaf. The owner's sneakers stand right beside him. A steel water bowl sits by the cabinets in the background. Sound: birds, grass rustling. 20-25s (Paw in hand): Living room floor beside the sofa, evening, a lamp switched on. The puppy sits beside the owner and places one front paw on the owner's open palm, the paw small against it, then licks the owner's fingers. The edge of a grey couch and a woven rug show behind him in the warm lamp light. Sound: soft licking, owner says "high five".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Paw pads

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

Those toe beans though.
Who else could stare at puppy paws all day?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
