Twitching in His Sleep

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy dreaming in his bed: falling asleep, paws paddling, tiny muffled woofs, ear flicks and waking up confused.

TIMELINE

0-5s	Falls asleep
5-10s	Paws paddle
10-15s	Muffled woofs
15-20s	Ear flick
20-25s	Wakes confused

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Falls asleep): Living room floor, afternoon daylight from a window, a fluffy grey dog bed on beige carpet. The puppy lies on his side in the bed, eyes closed, breathing slowly with his round belly rising and falling and one floppy ear folded over. Sound: quiet room, slow breathing. 5-10s (Paws paddle): Same living room dog bed, afternoon light. The puppy's front and back paws start paddling softly in the air as if running, his eyelids fluttering and his tail giving small flicks against the bed. The beige carpet and a scattered rope toy show around the bed in the window light. Sound: soft rustling, owner whispers "he's running". 10-15s (Muffled woofs): Close view of the puppy's face resting in the grey dog bed, afternoon daylight. His lips twitch and puff out with tiny muffled woofs, whiskers moving, eyes closed tight. The beige carpet shows at the edge of the frame. One front paw is tucked under his chin and his floppy ear lies folded over the edge of the bed. Sound: tiny muffled woofs. 15-20s (Ear flick): Living room dog bed, afternoon light starting to dim. One floppy ear twitches and flicks, a back leg kicks once, and the puppy lets out a small whimper before his whole body relaxes again. The quiet living room is lit by daylight through thin curtains, a few toys scattered on the carpet. Sound: a small whimper, a sigh. 20-25s (Wakes confused): Living room, late afternoon, a floor lamp switched on beside the couch. The puppy suddenly lifts his head, blinks around sleepily as if unsure where he is, then lays his head back down on the edge of the bed with a sigh. Sound: a big sigh, owner laughs quietly.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Falls asleep

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room floor, afternoon daylight from a window, a fluffy grey dog bed on beige carpet. The puppy lies on his side in the bed, eyes closed, breathing slowly with his round belly rising and falling and one floppy ear folded over. Sound: quiet room, slow breathing.

Clip 2 | 5-10s | Paws paddle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
