First Time Seeing Rain

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy meets his first rainy day: staring out the back door, testing a wet paw, a few steps under the umbrella, pouncing on gutter drips and a cozy towel dry.

TIMELINE

0-5s	Staring at the rain
5-10s	Wet paw test
10-15s	Under the umbrella
15-20s	Pouncing on drips
20-25s	Towel dry

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Staring at the rain): Back doorway of a small house, grey overcast afternoon, steady light rain falling on the concrete patio. The dog sits on the doormat just inside the open sliding door, staring out at the drops splashing on the ground, head tilting from side to side, his floppy ears twitching at every patter. Sound: steady rain on the patio, water running in the gutter, owner whispers "what is that?". 5-10s (Wet paw test): Same back doorway, flat grey rainy daylight, wet patio just outside. The dog stretches one oversized front paw out onto the wet concrete, touches the cold water, quickly pulls it back and shakes it, then sniffs the damp paw very seriously. The owner's sock feet stand on the doormat right beside him. Sound: rain pattering, a tiny snort, owner laughing softly. 10-15s (Under the umbrella): Small backyard lawn, light rain, overcast grey daylight, wooden fence behind. The owner holds a large black umbrella low over the dog as he takes a few wobbly steps onto the wet grass, sniffing the soaked blades. Raindrops tap on the umbrella above him and the tips of his fur get slightly damp. Sound: rain drumming on the umbrella, squishy grass, owner says "good boy, you're okay". 15-20s (Pouncing on drips): Covered back porch with wooden boards, rainy grey daylight, water dripping steadily from the edge of the gutter. The dog sits under the roof watching single drops fall, then pounces clumsily at a splash on the wet boards, bumps his nose on the wood and sneezes, his tail still wagging. Sound: drip, drip, drip, a small sneeze, rain in the background. 20-25s (Towel dry): Laundry room with a beige tile floor and a white washing machine, ordinary ceiling light on, rain still tapping on the small window. The owner's two hands gently rub the dog with a striped blue towel, his fur sticking up in damp tufts, while he wags and tries to bite the towel corner. Sound: towel rubbing, rain on the window, playful puppy growl, owner says "all dry".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Staring at the rain

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Back doorway of a small house, grey overcast afternoon, steady light rain falling on the concrete patio. The dog sits on the doormat just inside the open sliding door, staring out at the drops splashing on the ground, head tilting from side to side, his floppy ears twitching at every patter. Sound: steady rain on the patio, water running in the gutter, owner whispers "what is that?".

Clip 2 | 5-10s | Wet paw test

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Same back doorway, flat grey rainy daylight, wet patio just outside. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
