First Vet Checkup

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy's first visit to the vet: waiting on the clinic floor, being lifted onto a non-slip mat, a gentle ear check, a stethoscope listen and a brave-boy treat.

TIMELINE

0-5s	Waiting room
5-10s	Onto the mat
10-15s	Gentle ear check
15-20s	Stethoscope listen
20-25s	Brave boy treat

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Waiting room): Small veterinary clinic waiting room, bright ordinary ceiling lights, light grey vinyl floor, plain pale green walls and plastic chairs. The dog sits on the floor between the owner's sneakers on a short leash, sniffing the air and looking around at everything, his ears twitching at a distant meow from another room. Sound: quiet clinic murmur, a distant meow, phone ringing at the front desk. 5-10s (Onto the mat): Small exam room with plain white walls and bright clinic lights. The owner's two hands lift the dog carefully onto a steel exam table covered with a green non-slip rubber mat, keeping one hand on his back the whole time. He stands a bit wobbly, paws spreading on the mat, sniffing the air. Sound: rubber mat squeak, owner says "easy, I've got you". 10-15s (Gentle ear check): Same exam room, bright clinic lighting. A vet's hands in light blue gloves gently hold the dog's head and lift one floppy ear to peek inside, while the owner's hand rests on his back. The dog stays standing on the green non-slip mat, licking his lips and wagging his tail a little. Sound: vet says softly "good boy, nice clean ears", tail thumping on the mat. 15-20s (Stethoscope listen): Exam room with white walls and ordinary clinic ceiling light. The vet's gloved hand rests a stethoscope softly against the dog's side while the owner's hand steadies him on the green rubber mat. The dog turns his head, sniffs the vet's sleeve and tries to lick the stethoscope tube. Sound: quiet room, small sniffs, owner chuckles. 20-25s (Brave boy treat): Same exam room, bright clinic light, grey vinyl floor. The owner lifts the dog down with two hands and sets him on the floor. The vet's gloved hand offers a small soft treat, which the dog gobbles happily, then he wiggles his whole back end and sits on the owner's shoe looking up. Sound: vet says "all done, so brave", happy panting, collar tag jingle.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Waiting room

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Small veterinary clinic waiting room, bright ordinary ceiling lights, light grey vinyl floor, plain pale green walls and plastic chairs. The dog sits on the floor between the owner's sneakers on a short leash, sniffing the air and looking around at everything, his ears twitching at a distant meow from another room. Sound: quiet clinic murmur, a distant meow, phone ringing at the front desk.

Clip 2 | 5-10s | Onto the mat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Small exam room with plain white walls and bright clinic lights. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
