# First Autumn Leaves

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

The puppy discovers fallen leaves: a careful sniff at the pile, chasing a falling leaf, diving in, carrying a big leaf like a prize and getting leaf bits picked out of his coat.

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Sniffing the pile): Suburban backyard in mid-autumn, cool overcast afternoon, patchy grass covered in yellow and brown maple leaves, a rake leaning on a wooden fence. The dog stands at the edge of a small raked leaf pile, sniffing it carefully, then jumps back when a dry leaf crackles under his paw. Sound: crackling leaves, wind in the trees, owner laughs "it's just leaves". 5-10s (Chasing a falling leaf): Same backyard, soft grey afternoon light, a maple tree dropping leaves. A single yellow leaf twirls down and the dog chases it with clumsy bouncing steps, snapping at the air and missing, then pounces on it once it lands and holds it down with both front paws, tail wagging. Sound: rustling, light wind, puppy huffing. 10-15s (Diving in): Backyard leaf pile, cool overcast daylight, wooden fence behind. The dog wobbles into the middle of the pile until only his head and ears show above the leaves, which crunch and scatter around him. He shakes his head with a leaf stuck to one ear and looks back toward the camera. Sound: loud crunching leaves, owner giggling, "where did you go?". 15-20s (Carrying a big leaf): Backyard lawn scattered with fallen leaves, grey autumn daylight. The dog trots proudly across the grass carrying a big brown oak leaf in his mouth like a prize, tripping slightly over his own oversized paws. When the owner's hand reaches down he swerves away playfully, ears flopping. Sound: leaves rustling underfoot, owner says "is that yours?". 20-25s (Picking out leaf bits): Back porch steps, cool late afternoon daylight, a few leaves on the wooden boards. The dog sits on the owner's lap on the step while the owner's fingers pick small bits of crunchy leaf out of his fluffy coat. He yawns widely and leans his head against the owner's knee. Sound: soft crinkle of leaf bits, a big yawn, distant leaf blower far away.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
