First Time Meeting a Chicken

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm, supervised first meeting with a hen through a wire fence: hearing the clucks, watching from the grass, a careful sniff through the fence, a calm-sit reward and a walk away.

TIMELINE

0-5s	Hearing clucks
5-10s	Watching from the grass
10-15s	Sniff through the fence
15-20s	Calm sit reward
20-25s	Walking away

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Hearing clucks): Backyard of a country house, mild morning, overcast daylight, patchy grass and a small wooden chicken coop behind a low wire fence. The dog walks on a loose light blue leash beside the owner's rubber boots, then stops suddenly when he hears clucking, his floppy ears perking up. Sound: hens clucking, birds, boots on grass, owner says "hear that?". 5-10s (Watching from the grass): Beside the low wire fence of the chicken run, soft grey morning light. A brown hen pecks at the ground on the other side of the wire. The dog sits on the grass a few steps back with the owner's hand resting on his back, watching closely, head tilting, nose working, tail sweeping the grass. Sound: soft clucks, pecking, owner whispers "gentle, easy". 10-15s (Sniff through the fence): Same chicken run fence, overcast daylight, straw scattered on the ground inside. The hen walks closer to the wire. With the owner crouched right beside him, the dog stretches his neck forward and sniffs through the fence, then sneezes and steps back when the hen flaps her wings once. Sound: wing flap, a startled cluck, tiny puppy sneeze. 15-20s (Calm sit reward): Grass beside the coop, cool morning daylight, the wire fence behind. The owner crouches and gives the dog a small treat for sitting calmly, while the hen keeps pecking behind the fence in the background. The dog takes the treat gently, glances back at the hen, then at the owner. Sound: crunching, steady clucking, owner says "good, nice and calm". 20-25s (Walking away): Garden path leading back toward the house, overcast morning light, a wheelbarrow parked by a shed. The dog trots beside the owner's boots on the loose leash, looking back over his shoulder at the clucking coop a couple of times, then bounces ahead after a leaf blowing across the path. Sound: gravel crunching, clucks fading, collar tag jingling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hearing clucks

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Backyard of a country house, mild morning, overcast daylight, patchy grass and a small wooden chicken coop behind a low wire fence. The dog walks on a loose light blue leash beside the owner's rubber boots, then stops suddenly when he hears clucking, his floppy ears perking up. Sound: hens clucking, birds, boots on grass, owner says "hear that?".

Clip 2 | 5-10s | Watching from the grass

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

He was very polite. The hen was not impressed.
Does your dog get along with your chickens?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
