First Time Seeing a Butterfly

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A white butterfly turns a sunny garden into an adventure: spotting it, a wobbly chase, a flower sniff surprise, a clumsy jump and a shady rest under the apple tree.

TIMELINE

0-5s	Spotting it
5-10s	Wobbly chase
10-15s	Flower sniff surprise
15-20s	Clumsy jump
20-25s	Shady rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Spotting it): Sunny back garden in early summer, bright natural daylight, a patch of lavender and clover near a wooden fence. The dog lies on the grass chewing a rubber toy when a small white butterfly flutters right past his nose. He freezes, drops the toy, and follows it with his eyes. Sound: birdsong, a lawn sprinkler far away, owner whispers "look at that". 5-10s (Wobbly chase): Same garden, warm midday sunlight, soft green lawn. The butterfly drifts low over the grass and the dog bounces after it with wobbly puppy hops, ears flopping, missing it every time. The owner's legs in shorts and flip-flops stand nearby at the edge of the frame. Sound: little thumps on the grass, panting, owner laughing. 10-15s (Flower sniff surprise): Garden border with purple lavender, bright sunny daylight, wooden fence behind. The butterfly settles on a flower. The dog creeps close and sniffs the lavender carefully, and the butterfly lifts off right in front of his nose, making him sit down hard in surprise, ears up. Sound: soft sniffing, birds, owner says "oh, it flew away". 15-20s (Clumsy jump): Open lawn, sunny afternoon light, patchy grass and a plastic garden chair. The dog tries a small jump toward the butterfly fluttering above him, lands clumsily, rolls onto his side, and lies on his back wiggling for a moment with paws in the air before scrambling back up. Sound: soft thump, grass rustling, owner says "nice try". 20-25s (Shady rest): Shady spot under a small apple tree, dappled afternoon sunlight, cool grass. The dog lies flat on his belly, panting softly, eyes half closed. The white butterfly passes overhead once more and he lifts his head to watch it, then puts his chin back down on his paws. Sound: gentle panting, leaves rustling, distant birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting it

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
