First Time Meeting a Horse Over the Fence

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

On a country walk the puppy meets a horse over a paddock fence from the safety of the owner's arms: spotting it, the horse coming closer, a curious sniff at the air, a startled snort and a walk away.

TIMELINE

0-5s	Spotting the horse
5-10s	Picked up safe
10-15s	Sniffing the air
15-20s	Startled by a snort
20-25s	Walking on

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Spotting the horse): Country lane next to a grassy paddock, cool cloudy afternoon, wooden post-and-rail fence. The dog walks on a loose leash beside the owner's boots on the gravel shoulder, then stops and stares through the rails at a tall brown horse grazing at the far end of the field, ears lifting. Sound: wind over the field, gravel crunching, a crow calling. 5-10s (Picked up safe): Same paddock fence, soft overcast daylight. The owner scoops the dog up with both arms and holds him against their chest a safe step back from the rails. The horse lifts its head and walks calmly toward the fence, and the dog's ears go up, his brown nose twitching. Sound: hooves thudding softly on grass, owner says "look, a big friend". 10-15s (Sniffing the air): Paddock fence, cloudy daylight, long grass along the rails. The horse lowers its big head over the top rail, still well above and apart from the dog. Held securely in the owner's arms, the dog stretches his nose forward sniffing the air, eyes wide, tail wagging against the owner's arm. Sound: horse breathing, puppy sniffing, owner whispers "gentle". 15-20s (Startled by a snort): Same spot by the fence, overcast daylight. The horse snorts softly and the dog flinches, tucking his head into the owner's jacket, then peeks out again. The owner's hand strokes his back calmly while the horse goes back to munching grass behind the rails. Sound: soft horse snort, grass tearing, owner chuckles "it's okay". 20-25s (Walking on): Gravel lane leading away from the paddock, cloudy late afternoon light, a hedge along one side. The owner sets the dog down on the gravel and he trots along on his leash, stopping once to look back at the horse in the field before shaking his ears and moving on. Sound: gravel crunching, collar tag jingling, wind in the hedge.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting the horse

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Country lane next to a grassy paddock, cool cloudy afternoon, wooden post-and-rail fence. The dog walks on a loose leash beside the owner's boots on the gravel shoulder, then stops and stares through the rails at a tall brown horse grazing at the far end of the field, ears lifting. Sound: wind over the field, gravel crunching, a crow calling.

Clip 2 | 5-10s | Picked up safe

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
