First Puddle Splash

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A walk after the rain leads to the puppy's first puddle: a careful sniff, a paw tap, stomping in, a muddy shake and a paw wipe on the porch.

TIMELINE

0-5s	Finding the puddle
5-10s	Paw tap
10-15s	Stomping in
15-20s	Muddy shake
20-25s	Paw wipe

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Finding the puddle): Quiet suburban sidewalk after rain, grey overcast morning, wet pavement and a wide shallow puddle beside the curb. The dog walks on his light blue leash next to the owner's yellow rain boots, stops at the edge of the puddle, and sniffs the water surface carefully. Sound: dripping trees, a car passing on wet road, sniffing. 5-10s (Paw tap): Same sidewalk puddle, flat grey daylight, wet leaves around the edge. The dog taps the water with one front paw, making small ripples, watches them spread, then taps again harder, splashing a little water onto his own face and blinking in surprise. Sound: little splashes, owner laughing "you did that". 10-15s (Stomping in): Shallow puddle on the sidewalk, overcast daylight. The dog steps in with all four oversized paws, the water barely covering his toes, and stomps around in a little circle splashing, tail wagging hard. The owner's rain boots stand right beside the puddle the whole time. Sound: splash, splash, splash, happy puppy panting. 15-20s (Muddy shake): Same sidewalk, grey morning light, a grass verge next to the puddle. The dog bounces from the puddle onto the wet grass and back in again, muddy water splashing up onto his tan legs and belly. He stops and shakes his whole body, ears flapping, droplets flying toward the owner's boots. Sound: splashing, shaking ears flapping, owner says "oh no, my boots". 20-25s (Paw wipe): Front porch of the house, overcast daylight, a coir doormat and a pair of muddy shoes by the door. The owner's hands wipe the dog's paws one by one with an old grey towel. He wiggles, tries to grab the towel in his teeth, and wags hard the whole time. Sound: towel rubbing, playful growl, owner says "one more paw".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Finding the puddle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Quiet suburban sidewalk after rain, grey overcast morning, wet pavement and a wide shallow puddle beside the curb. The dog walks on his light blue leash next to the owner's yellow rain boots, stops at the edge of the puddle, and sniffs the water surface carefully. Sound: dripping trees, a car passing on wet road, sniffing.

Clip 2 | 5-10s | Paw tap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
