First Frosty Morning

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy steps into his first frost: tiptoeing on the doormat, paw prints in the white grass, crunchy bounces, a peek at the frozen birdbath and warming up by the vent.

TIMELINE

0-5s	Tiptoe on the mat
5-10s	Paw prints
10-15s	Crunchy bounces
15-20s	Frozen birdbath
20-25s	Warming up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Tiptoe on the mat): Back door of a house, very early morning, cold pale blue daylight, the lawn white with frost. The owner opens the door and the dog steps out onto the frosty doormat, stops, and lifts one paw high, puts it down, then lifts another, his breath making tiny puffs. Sound: door creak, cold quiet morning, a crow calling. 5-10s (Paw prints): Frosty backyard, cold clear morning light, crunchy white grass and a frosted wooden fence. The dog walks onto the lawn, leaving small dark paw prints in the frost. He sniffs the icy grass, licks it once, and sneezes, his breath making small clouds of mist. Sound: frost crunching, a tiny sneeze, owner says "cold, huh?". 10-15s (Crunchy bounces): Same frosty lawn, pale morning sunlight starting to reach the top of the fence. The dog bounces along in short bursts, the frozen grass crunching under his oversized paws, then stops and looks back at his trail of paw prints. The owner's boots stand nearby. Sound: crunch, crunch, panting, birds waking up. 15-20s (Frozen birdbath): Corner of the frosty garden by a low stone birdbath with a thin layer of ice, cold bright morning light. The dog sniffs the edge of the birdbath, paws at the ice gently and jumps back when it makes a little cracking sound. The owner's gloved hand rests on the birdbath rim. Sound: thin ice cracking, owner laughing softly. 20-25s (Warming up): Warm kitchen, morning daylight through a window, beige tile floor, a heating vent by the wall. The dog lies on a folded fleece blanket next to the warm vent, eyes slowly closing, while the owner's hands gently rub his chilly paws dry with a small towel. Sound: heater humming, towel rubbing, a long sleepy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tiptoe on the mat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Back door of a house, very early morning, cold pale blue daylight, the lawn white with frost. The owner opens the door and the dog steps out onto the frosty doormat, stops, and lifts one paw high, puts it down, then lifts another, his breath making tiny puffs. Sound: door creak, cold quiet morning, a crow calling.

Clip 2 | 5-10s | Paw prints

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
