First Time Meeting Kids

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy meets two calm kids sitting on the floor with an adult watching: a careful approach, a hand sniff, gentle petting, a little rope-toy play and a nap between them.

TIMELINE

0-5s	Kids waiting
5-10s	Hand sniff
10-15s	Gentle petting
15-20s	Rope toy play
20-25s	Nap between them

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Kids waiting): Family living room with a beige carpet and a basket of toys in the corner, bright midday daylight through big windows. Two kids around eight and ten sit cross-legged on the floor, waiting quietly. The owner's arms set the dog down on the carpet a few steps away from them. Sound: kids whispering "he's so small", adult says "stay sitting, let him come to you". 5-10s (Hand sniff): Same living room floor, natural daylight. The dog wobbles toward the kids, sniffing the carpet, tail low but wagging. The girl holds out a flat open hand and the dog sniffs her fingers carefully. An adult's legs are visible on the sofa right beside them, watching. Sound: soft giggle, sniffing, adult says "nice and still". 10-15s (Gentle petting): Living room carpet, bright midday light. The kids stroke the dog's back with slow, soft hands while an adult kneels right next to them. The dog leans into the petting and licks the boy's wrist, making him giggle quietly and hold very still. Sound: quiet giggles, adult says "gentle hands, just like that". 15-20s (Rope toy play): Same carpet, midday daylight, the toy basket nearby. The girl drags a soft rope toy slowly along the floor and the dog pounces on it, tugging with tiny growls and wagging. The adult's hand rests on the carpet close to the dog the whole time. Sound: tiny growls, kids laughing softly, rope toy swishing. 20-25s (Nap between them): Living room floor, soft afternoon daylight. The dog has fallen asleep on a folded blanket between the two kids, who sit very still and whisper to each other. An adult's hand gently tucks the blanket edge around him while the kids look down at him. Sound: kids whispering "shh, he's sleeping", soft puppy breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Kids waiting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
