First Time Seeing a Cat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm, supervised first look at the family cat: staring up at her on the sofa, the owner holding him back, sniffing through a baby gate, a tail-swish lesson and relaxing in the same room.

TIMELINE

0-5s	Staring up
5-10s	Held back gently
10-15s	Sniff through the gate
15-20s	Tail swish lesson
20-25s	Same room, calm

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Staring up): Cozy living room, late afternoon, soft natural daylight from a window, a grey sofa and a wooden floor. An adult grey tabby cat sits calmly on top of the sofa backrest. The dog stops in the middle of the floor and stares up at her, head tilted, floppy ears lifting. Sound: quiet room, a soft meow, owner whispers "that's the cat". 5-10s (Held back gently): Same living room, afternoon daylight. The owner kneels with one hand resting on the dog's chest, keeping him a few steps from the sofa. The dog sniffs the air toward the cat with his tail wagging and lets out a tiny curious whine. The cat watches him, blinking slowly. Sound: small whine, owner says "easy, let her decide". 10-15s (Sniff through the gate): Living room doorway with a white baby gate, soft daylight. The cat sits calmly on the hallway side of the gate washing a paw. The dog sniffs through the bars from his side with the owner's hand on his back, then sits down when the cat looks at him. Sound: cat licking, sniffing, owner says "good, nice and calm". 15-20s (Tail swish lesson): Same baby gate, afternoon daylight. The cat swishes her tail and the dog follows it with his eyes, then bows down playfully. The cat gives one calm flick of her tail and walks away down the hallway, and the dog flops down on the floor with a little sigh. Sound: puppy huff, cat padding away, owner laughing softly. 20-25s (Same room, calm): Living room rug, early evening, ordinary table lamp light. The dog lies on his blanket chewing a rubber toy while the grey tabby cat sits on a windowsill across the room, both relaxed. The owner's hand reaches down and rewards the dog with a small treat for staying calm. Sound: rubber toy chewing, cat purring faintly, owner says "good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Staring up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Cozy living room, late afternoon, soft natural daylight from a window, a grey sofa and a wooden floor. An adult grey tabby cat sits calmly on top of the sofa backrest. The dog stops in the middle of the floor and stares up at her, head tilted, floppy ears lifting. Sound: quiet room, a soft meow, owner whispers "that's the cat".

Clip 2 | 5-10s | Held back gently

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Same living room, afternoon daylight. The owner kneels with one hand resting on the dog's chest, keeping him a few steps from the sofa. The dog sniffs the air toward the cat with his tail wagging and lets out a tiny curious whine. The cat watches him, blinking slowly. Sound: small whine, owner says "easy, let her decide".

Clip 3 | 10-15s | Sniff through the gate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
