First Evening on the Porch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy spends his first evening on the front porch: exploring the boards, watching the quiet street, chasing a moth shadow, rocking on the swing and falling asleep in the owner's lap.

TIMELINE

0-5s	Exploring the porch
5-10s	Watching the street
10-15s	Moth shadow
15-20s	Swing rocking
20-25s	Asleep on the lap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Exploring the porch): Front porch of a wooden house, early evening, soft fading daylight, two porch chairs and potted plants. The owner carries the dog out in both arms and sets him down on the painted boards. He sniffs the floor, then the leg of a chair, his tail slowly wagging. Sound: screen door creak, birds settling, distant car. 5-10s (Watching the street): Same porch at dusk, ordinary porch light just switched on. The dog sits near the top step watching the quiet street, ears twitching at a dog barking far away and a car rolling past. The owner's legs stand right behind him at the step. Sound: distant bark, car passing, crickets starting. 10-15s (Moth shadow): Porch at dusk, warm yellow porch lamp light, a moth fluttering around the bulb. The dog watches the moth with his head tilting, then pounces lightly at its moving shadow on the boards and misses. The owner's sneaker is right next to him. Sound: soft paw thump, crickets, owner chuckles. 15-20s (Swing rocking): Wooden porch swing, evening, porch lamp light and a dark blue sky beyond the railing. The owner sits on the swing with the dog on their lap, both hands around him as it rocks gently. He looks around with wide eyes, then rests his chin on the owner's knee. Sound: swing chains creaking softly, crickets, owner hums. 20-25s (Asleep on the lap): Same porch swing, darker evening, crickets in the garden, warm porch lamp light. The dog has fallen asleep in the owner's lap with his oversized paws hanging over the owner's knee. The owner's hand strokes his soft ears while the swing creaks gently. Sound: crickets, soft puppy snore, owner whispers "best night".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Exploring the porch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Front porch of a wooden house, early evening, soft fading daylight, two porch chairs and potted plants. The owner carries the dog out in both arms and sets him down on the painted boards. He sniffs the floor, then the leg of a chair, his tail slowly wagging. Sound: screen door creak, birds settling, distant car.

Clip 2 | 5-10s | Watching the street

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
