First Time Hearing the Lawn Mower

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A far-off lawn mower puzzles the puppy on the porch: ears up, staring toward the sound, a small woof, calm treats from the owner and a nap that ignores it completely.

TIMELINE

0-5s	Ears up
5-10s	Staring at the sound
10-15s	Small woof
15-20s	Calm treats
20-25s	Ignoring it

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Ears up): Back porch of a house, warm Saturday morning, sunny daylight. The dog chews a rubber toy on the porch boards when a lawn mower starts up far away in a neighbor's yard. He stops chewing, lifts his head and turns his floppy ears toward the faint sound. Sound: faint mower starting far away, birds, rubber toy squeak. 5-10s (Staring at the sound): Same porch, sunny morning light, a wooden railing and a potted plant. The dog walks to the edge of the porch and stares toward the fence at the far end of the yard, nose working, ears up. The faint mower sound keeps going somewhere in the distance. Sound: distant mower rumble, sniffing, owner says "that's far away". 10-15s (Small woof): Back porch, bright morning daylight. The dog lets out a small uncertain woof at the far-off rumble, then backs up until he bumps into the owner's legs. The owner crouches down and strokes his back with one hand, talking softly to him. Sound: tiny woof, distant mower, owner says "it's okay, it's just the neighbor". 15-20s (Calm treats): Back porch step, sunny morning light. The owner sits on the step with the dog between their feet, offering small treats one by one while the distant mower keeps humming. The dog takes each treat gently and starts to relax, his ears softening. Sound: crunching treats, faint mower hum, owner says "good, so brave". 20-25s (Ignoring it): Porch boards in the shade, late morning, the far-away mowing still faintly audible. The dog lies on his side stretched out and sleepy, chewing lazily on his toy and completely ignoring the sound now. The owner's hand rests on his belly. Sound: faint mower, soft chewing, puppy sighs.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Ears up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Back porch of a house, warm Saturday morning, sunny daylight. The dog chews a rubber toy on the porch boards when a lawn mower starts up far away in a neighbor's yard. He stops chewing, lifts his head and turns his floppy ears toward the faint sound. Sound: faint mower starting far away, birds, rubber toy squeak.

Clip 2 | 5-10s | Staring at the sound

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
