First Time Wearing a Sweater

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

On a chilly evening the puppy tries his first sweater: suspicious sniffing, the gentle fitting, funny stiff steps, forgetting it during play and falling asleep cozy on the owner's lap.

TIMELINE

0-5s	Sniffing the sweater
5-10s	Gentle fitting
10-15s	Stiff steps
15-20s	Forgetting it
20-25s	Cozy lap nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Sniffing the sweater): Living room on a chilly autumn evening, warm table lamp light, a couch with a knitted throw. The owner's hands hold a small grey knitted dog sweater in front of the dog. He sniffs it suspiciously, then grabs one sleeve in his teeth and tugs. Sound: TV murmuring, playful growl, owner says "it's for you, silly". 5-10s (Gentle fitting): Same living room rug, warm lamp light. The owner's two hands gently slip the sweater over the dog's head and ease his front paws through the leg holes one at a time. He stands still with wide eyes while the owner smooths the knit along his back. Sound: soft knit rustling, owner says "almost done, good boy". 10-15s (Stiff steps): Living room wooden floor, warm evening lamp light. The dog takes a few stiff, funny steps in the sweater, lifting his paws high like he is walking through snow, then sits down suddenly and turns his head to look at his own back. Sound: owner laughing hard, claws clicking on wood. 15-20s (Forgetting it): Living room rug, lamp light, a basket of toys by the couch. The dog forgets all about the sweater and pounces on a soft rope toy, shaking it, then rolls onto his back in the cozy grey knit with his tail wagging under the hem. Sound: playful growls, rope toy swishing, owner says "see, it's fine". 20-25s (Cozy lap nap): Couch with a knitted throw, evening lamp light. The owner sits on the couch with the dog in their lap wearing his grey sweater, one arm around him so he cannot slide off. He is fast asleep, curled into a ball, his nose tucked into the crook of the owner's elbow. Sound: soft snoring, wind outside the window, owner whispers "cozy boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sniffing the sweater

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room on a chilly autumn evening, warm table lamp light, a couch with a knitted throw. The owner's hands hold a small grey knitted dog sweater in front of the dog. He sniffs it suspiciously, then grabs one sleeve in his teeth and tugs. Sound: TV murmuring, playful growl, owner says "it's for you, silly".

Clip 2 | 5-10s | Gentle fitting

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
