First Picnic Blanket Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy's first picnic in the park: attacking the blanket corner, sniffing the basket, a water break, rolling in the grass and a belly-up nap on the blanket.

TIMELINE

0-5s	Blanket attack
5-10s	Sniffing the basket
10-15s	Water break
15-20s	Rolling in the grass
20-25s	Belly-up nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Blanket attack): Grassy public park on a sunny spring afternoon, bright natural daylight, trees in the background. The owner's hands spread a red and white checkered picnic blanket on the grass. The dog pounces on the corner as it lands and grabs it in his mouth, tugging. Sound: blanket flapping, kids playing far away, owner laughing "hey, let go". 5-10s (Sniffing the basket): Same park, sunny daylight, the checkered blanket on the grass. The dog sits in the middle of the blanket sniffing a closed wicker basket and a plastic container of sandwiches. The owner's hand moves the container away and gives him a small dog biscuit instead. Sound: sniffing, biscuit crunch, owner says "that one is yours". 10-15s (Water break): Picnic blanket on the grass, bright afternoon light, a water bottle and paper plates nearby. The owner pours fresh water into a small collapsible bowl, and the thirsty dog laps it noisily, water dripping from his chin onto the checkered blanket. Sound: water pouring, loud lapping, birds. 15-20s (Rolling in the grass): Park lawn right next to the blanket, sunny afternoon daylight. The dog rolls off the blanket into the soft grass, wiggling on his back, then jumps up and chases a dandelion seed floating past before toddling back to the owner's knees on the blanket. Sound: grass rustling, happy huffs, owner says "come back here". 20-25s (Belly-up nap): Picnic blanket in the dappled shade of a tree, warm late afternoon light. The dog sleeps stretched out on the blanket next to the owner's legs, belly up, paws curled. The owner's hand gently brushes a blade of grass off his ear. Sound: leaves rustling, distant voices, soft puppy breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Blanket attack

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
