Learning Sit in Three Days

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Three days of tiny sit lessons: the first lure in the kitchen, a first real sit, a wobbly day two on the rug, a sit on the grass on day three and a proud sit by the front door.

TIMELINE

0-5s	Day one lure
5-10s	First real sit
10-15s	Day two rug
15-20s	Day three outside
20-25s	Sit by the door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Day one lure): Small kitchen, morning daylight from the window, beige tile floor, a water bowl by the fridge. The owner's hand holds a tiny treat just above the dog's nose and moves it slightly back over his head. The puppy stretches his neck up, wobbles and takes two clumsy steps backward instead of sitting. Sound: fridge hum, little paws on tile, owner laughs "not quite, buddy". 5-10s (First real sit): Same kitchen a minute later, morning daylight, beige tiles. The owner's hand lifts the treat again, slower this time. The dog's back end slowly sinks until his bottom touches the floor, his big paws splayed. The hand gives him the treat right away and the other hand rubs his chest. Sound: happy gasp from the owner, "yes! good sit!", soft crunching. 10-15s (Day two rug): Living room in the evening, warm table lamp on, a striped rug and a grey sofa in the background. The owner kneels on the rug and raises a treat. The puppy sits at once, then pops back up for the treat, then sits again faster, tail sweeping across the rug. Sound: TV murmuring quietly in another room, owner says "good boy", tail thumping. 15-20s (Day three outside): Backyard on an overcast afternoon, patchy green grass, a wooden fence and a garden hose coiled by the steps. The owner's hand is held up with no treat visible and the dog sits in the grass, ears flopping, looking up. The other hand brings a tiny treat from a pocket pouch. Sound: birds, a distant lawnmower, owner whispers "look at you". 20-25s (Sit by the door): Front hallway, late afternoon daylight from a small window, shoes lined up by the door and a blue puppy leash hanging on a hook. The puppy trots up and plops into a sit by himself in front of the door, looking up at the camera, tail wiggling on the floor mat. Sound: tags jingling, owner laughing "three days, people!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Day one lure

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Small kitchen, morning daylight from the window, beige tile floor, a water bowl by the fridge. The owner's hand holds a tiny treat just above the dog's nose and moves it slightly back over his head. The puppy stretches his neck up, wobbles and takes two clumsy steps backward instead of sitting. Sound: fridge hum, little paws on tile, owner laughs "not quite, buddy".

Clip 2 | 5-10s | First real sit

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
