15-20s	Family applause
20-25s	New toy at home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Sit stay): Calm indoor training room in the evening, ordinary ceiling lights, grey rubber mats and plain white walls. The puppy sits on his blue mat while the owner takes two steps back with a hand raised. He stays, wiggling a little, until the owner returns and gives a treat. Sound: quiet room, owner whispers "stay... yes!". 5-10s (Recall across room): Same training room, ceiling lights, grey floor. A trainer in a dark fleece jacket gently holds the puppy's chest at one end of the room. The owner kneels at the far end and calls. He runs across the mats with his ears bouncing and crashes into the owner's arms. Sound: running paws, owner calls "come!", people clapping softly. 10-15s (New bandana): Training room, bright ceiling lights. The puppy sits in front of the owner, who ties a plain light blue bandana loosely around his neck over the collar. He sniffs the fabric, sneezes, then sits up straight as the owner's hand smooths it down. Sound: a little sneeze, laughter, owner says "so handsome". 15-20s (Family applause): Same room, ceiling lights. The puppy stands on his mat while two other puppies sit far apart on their own mats with owners. The family behind the camera claps, a child's hands visible clapping next to the owner. He wags his whole back end. Sound: clapping, a child cheers "you did it!", happy laughter. 20-25s (New toy at home): Home living room later that night, a warm floor lamp on, a beige carpet. The owner hands the puppy a new plush hedgehog toy. He grabs it, shakes it once, then lies down with it between his paws, still wearing the blue bandana. Sound: soft squeak, quiet house, owner says "proud of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
