The Name Game in the Garden

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Playing the name game in the garden: he looks up from the grass, turns from the vegetable patch, peeks around a lavender bush, ignores a butterfly and runs over for a cuddle.

TIMELINE

0-5s	Look up
5-10s	Vegetable patch
10-15s	Lavender peek
15-20s	Ignores butterfly
20-25s	Run for a cuddle

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Look up): Back garden on a sunny morning, a small square lawn bordered by flower beds and a wooden fence. The puppy sniffs the grass a few steps away. The owner says his name softly. His head pops up and he looks straight at the camera, ears wobbling, and gets a tiny treat. Sound: birds, owner calls his name softly, "yes!". 5-10s (Vegetable patch): Same garden, sunny morning, a raised wooden vegetable bed with lettuce and a watering can beside it. The puppy sniffs the base of the bed. The owner says his name and he turns his head, then trots over to the owner's knees. Sound: bees buzzing, owner calls his name, "good boy". 10-15s (Lavender peek): Garden path of flat stepping stones, sunny morning light, a round lavender bush by the path. The puppy is behind the bush sniffing. When his name is called, his face pops out from behind the purple flowers, ears floppy, and he wags. Sound: bees, rustling stems, owner laughs "there you are". 15-20s (Ignores butterfly): Same small lawn, bright sunshine, a white butterfly flutters low over the grass. The puppy follows it with his eyes and takes a step. The owner calls his name and he turns away from the butterfly to look at the owner, getting two treats. Sound: birds, owner calls his name, then "wow, good choice". 20-25s (Run for a cuddle): Garden lawn, late morning sunshine, a patio chair in the background. The owner sits on the grass and calls his name one more time. The puppy gallops over clumsily and climbs into the owner's lap, licking at the owner's chin as hands hold him. Sound: happy panting, owner laughing, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Look up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
