Family Recall Race

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A family recall game on the lawn: dad calls first, then a child, then mom, a run between everyone in turn and a big group cuddle at the end.

TIMELINE

0-5s	Dad calls
5-10s	Child's turn
10-15s	Mom calls
15-20s	Back and forth
20-25s	Group cuddle

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Dad calls): Fenced backyard on a Saturday afternoon, soft sunshine, a wide lawn with a few bare spots and a trampoline in the background. The family sits on the grass in a wide circle. A dad in jeans claps his hands and the puppy runs to him, ears flapping. Sound: birds, dad calls "puppy, come!", laughter. 5-10s (Child's turn): Same backyard, afternoon sunshine, grass. A boy around nine sits cross-legged with a treat in his open hand, his mother sitting right beside him. He calls the puppy, who turns and trots over clumsily and takes the treat gently from his palm. Sound: boy calls "come here!", giggles, mother says "nice". 10-15s (Mom calls): Backyard lawn, afternoon sunshine, a wooden fence behind. The camera is the mom's point of view sitting on the grass, her hands patting her knees. The puppy races toward the camera from across the circle and bumps into her hands, wagging hard. Sound: padding paws, mom laughs "good boy!", family cheering. 15-20s (Back and forth): Same backyard, sunny afternoon. The dad and the boy, sitting a few meters apart on the grass, take turns calling. The puppy runs from one to the other, gets a treat, then turns and runs back, a little slower each time, tongue out. Sound: calls of "come!", laughter, panting. 20-25s (Group cuddle): Backyard lawn, late afternoon sunshine. The puppy flops down in the middle of the circle. Several family hands reach in to rub his belly and ears as he lies on his back, paws in the air, panting happily. A few blades of grass stick to his fluffy coat. Sound: soft laughter, panting, boy says "he's tired!".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Dad calls

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
