Short Car Ride Practice

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Short car ride practice: treats in the crate in a parked car, the engine starting, a ride around the block with dad driving, a quick sniff at the park and a happy return home.

TIMELINE

0-5s	Parked car treats
5-10s	Engine on
10-15s	Around the block
15-20s	Park sniff
20-25s	Home again

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Parked car treats): Driveway in the morning, overcast daylight, the back door of a family car open. A small plastic travel crate is strapped onto the back seat with its door open. The owner's hand places treats inside and the puppy, sitting on the owner's arm, sniffs in and steps inside. Sound: birds, crate door creak, owner says "good, check it out". 5-10s (Engine on): Inside the car, back seat, overcast daylight through the windows. The puppy is in the secured crate with the door latched. The engine starts and he lifts his head, ears up. The owner sitting next to the crate pushes a treat through the wire. Sound: engine starting, idle hum, owner says "you're okay". 10-15s (Around the block): Back seat of the moving car, cloudy daylight, houses passing outside the window. A family member drives, only the back of their head visible in front. The puppy lies in the strapped-in crate, looking around calmly, then rests his chin on his paws. Sound: turn signal ticking, quiet road noise, soft radio talk. 15-20s (Park sniff): Small neighborhood park next to the parking lot, overcast morning, grass with fallen leaves. The puppy, on a leash and harness, sniffs around a tree trunk and wags. The parked car is visible behind him with the back door open. Sound: leaves rustling, birds, owner says "good trip". 20-25s (Home again): Home driveway, overcast daylight, the car parked with the back door open. The owner lifts the puppy out of the open crate with two hands and sets him on the concrete. He shakes off his fur and trots toward the front door, wagging. Sound: car door closing, tags jingling, owner says "that was easy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Parked car treats

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Driveway in the morning, overcast daylight, the back door of a family car open. A small plastic travel crate is strapped onto the back seat with its door open. The owner's hand places treats inside and the puppy, sitting on the owner's arm, sniffs in and steps inside. Sound: birds, crate door creak, owner says "good, check it out".

Clip 2 | 5-10s | Engine on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
