Learning to Settle on a Mat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Learning to settle on a mat: treats for stepping on it, lying down on it, chewing there while the owner reads, settling during dinner prep and falling asleep on it.

TIMELINE

0-5s	Step on mat
5-10s	Lying down
10-15s	Chew while reading
15-20s	Dinner prep
20-25s	Asleep on mat

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Step on mat): Living room in the morning, daylight from a big window, a wooden floor and a flat grey fleece mat in the middle. The owner drops a treat on the mat. The puppy walks onto it, eats the treat, and the hand drops another one right away. Sound: treats tapping the mat, owner says "yes, mat". 5-10s (Lying down): Same living room, morning daylight, grey mat on the wooden floor. The puppy stands on the mat looking up. After a moment he lies down on it by himself. The owner's hand calmly places a treat between his front paws. Sound: quiet room, owner whispers "good settle". 10-15s (Chew while reading): Living room in the afternoon, soft window light. The owner sits on the sofa with an open paperback book on the lap, the camera filming over the book. The puppy lies on the grey mat on the floor chewing a rubber bone, calm and busy. Sound: page turning, steady chewing, clock ticking. 15-20s (Dinner prep): Kitchen in the evening, warm overhead lights, pots on the stove. The grey mat is placed by the kitchen doorway. The puppy lies on it watching the owner's legs move around the counters, and a hand tosses a small treat to the mat. Sound: pan sizzling, cutting board tapping, owner says "good stay there". 20-25s (Asleep on mat): Same kitchen doorway, warm evening lights. The puppy has fallen asleep on the grey mat, lying on his side with his oversized paws stretched out. The owner's slippered feet step carefully around him. Steam rises from a pot on the stove behind. Sound: soft snoring, quiet kitchen sounds, owner whispers "look at him".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Step on mat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room in the morning, daylight from a big window, a wooden floor and a flat grey fleece mat in the middle. The owner drops a treat on the mat. The puppy walks onto it, eats the treat, and the hand drops another one right away. Sound: treats tapping the mat, owner says "yes, mat".

Clip 2 | 5-10s | Lying down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Same living room, morning daylight, grey mat on the wooden floor. The puppy stands on the mat looking up. After a moment he lies down on it by himself. The owner's hand calmly places a treat between his front paws. Sound: quiet room, owner whispers "good settle".

Clip 3 | 10-15s | Chew while reading

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
