His First Spin Trick

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Learning to spin with a treat lure: a half circle, a wobbly fall, a full spin, a spin the other way and a quick burst of happy zoomies.

TIMELINE

0-5s	Half circle
5-10s	Wobbly fall
10-15s	Full spin
15-20s	Other direction
20-25s	Happy zoomies

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Half circle): Kitchen at noon, bright daylight, light grey tile floor and a dish towel hanging on the oven. The owner's hand holds a treat at the puppy's nose and moves it in a slow circle. He follows halfway around, then stops and grabs for the treat. Sound: claws on tile, owner laughs "halfway there". 5-10s (Wobbly fall): Same kitchen, bright daylight, tile floor. The owner tries again. The puppy turns after the hand, his big paws get tangled and he plops onto his side on the tiles. He hops right back up and wags. The owner's hand reaches down and gently pats his side. Sound: small thump, owner says "oops, you're okay", laughter. 10-15s (Full spin): Kitchen, noon daylight, light grey tiles. The hand circles once more. This time the puppy follows all the way around in a full circle and ends facing the camera. The hand gives him the treat right away. His tail wags so hard his whole back end sways. Sound: owner cheers "yes! spin!", crunching. 15-20s (Other direction): Same kitchen, bright daylight. The owner's hand circles the opposite way. The puppy turns clumsily the other direction, a little slower, completing the circle with a small hop at the end, ears bouncing. The owner's hand gives him a treat and a quick scratch under the chin. Sound: tags jingling, owner says "both ways!". 20-25s (Happy zoomies): Kitchen opening into a hallway, bright daylight, tile floor. After his treat, the puppy suddenly runs in a quick loop down the hallway and back, sliding a little on the tiles, then stops in front of the owner panting. His tongue hangs out and he sits down for one more treat. Sound: scrabbling paws, owner laughing, panting.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Half circle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Kitchen at noon, bright daylight, light grey tile floor and a dish towel hanging on the oven. The owner's hand holds a treat at the puppy's nose and moves it in a slow circle. He follows halfway around, then stops and grabs for the treat. Sound: claws on tile, owner laughs "halfway there".

Clip 2 | 5-10s | Wobbly fall

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
