Puppy Confidence Course

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A tiny confidence course on the grass: a low fabric tunnel, a wobble cushion, a low plank, a line of pool noodles and a water break with a cuddle.

TIMELINE

0-5s	Low tunnel
5-10s	Wobble cushion
10-15s	Low plank
15-20s	Pool noodles
20-25s	Water break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Low tunnel): Backyard on a bright morning, short green grass and a wooden fence. A short low fabric play tunnel lies on the grass. The owner kneels at the far end holding a treat. The puppy peeks in, then trots through and pops out at the other side. Sound: fabric rustling, owner cheers "you did it!". 5-10s (Wobble cushion): Same backyard, bright morning, a flat round inflatable wobble cushion on the grass. The puppy places his front paws on it, feels it wiggle, steps back, then tries again and stands on it with all four paws while a hand gives him a treat. Sound: birds, soft rubber squeak, owner says "brave boy". 10-15s (Low plank): Backyard, morning sunshine, a wide wooden plank resting flat on two bricks just a few centimeters above the grass. The owner walks beside him with a treat at nose height. He walks along the plank carefully, big paws placed one by one. Sound: paws tapping on wood, owner says "easy, nice". 15-20s (Pool noodles): Same backyard, sunny morning, three colorful pool noodles laid flat in a row across the grass. The puppy follows the owner's hand and steps over each noodle, lifting his oversized paws high and clumsily tapping one with a back paw. Sound: soft foam tapping, birds, owner laughs "high steps". 20-25s (Water break): Backyard patio in the shade, late morning, a steel water bowl on the pavers. The puppy laps water noisily, water dripping from his chin, then the owner sits on the pavers and he climbs into the owner's lap for a cuddle. Sound: loud lapping, dripping, owner says "so proud of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Low tunnel

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
