Grooming Table Practice

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Practicing on a low grooming table: lifted up with two hands, standing on the non-slip mat, a soft brush, a comb touch and lifted down for a treat.

TIMELINE

0-5s	Lifted up
5-10s	Standing still
10-15s	Soft brush
15-20s	Comb touch
20-25s	Lifted down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Lifted up): Garage turned grooming corner on a Saturday morning, daylight from the open garage door, a low knee-height grooming table with a black non-slip rubber top. The owner lifts the puppy with two hands under his chest and bottom and sets him gently on it. Sound: garage echo, owner says "up we go". 5-10s (Standing still): Same grooming corner, morning daylight, the low table with its rubber mat. One of the owner's hands stays on the puppy's chest at all times while the other gives him a tiny treat. He stands, sniffing the table edge, tail wagging slowly. Sound: crunching, owner whispers "good standing". 10-15s (Soft brush): Grooming corner, daylight from the garage door. One hand rests on the puppy's shoulder while the other runs a soft bristle brush along his back in short strokes. He leans into the brush slightly and his eyes half close. A few loose fluffy hairs collect in the brush. Sound: soft brushing sounds, birds outside, owner says "you like that". 15-20s (Comb touch): Same grooming corner, morning daylight, the low non-slip table. The owner's hand holding a wide-tooth steel comb touches it gently to the fluffy fur on his chest, the other hand holding him steady. He sniffs the comb and gets a treat. Sound: comb tapping lightly, owner says "just a touch". 20-25s (Lifted down): Grooming corner, morning daylight. The owner lifts the puppy off the low table with two hands and sets him on a rubber mat on the garage floor. He shakes his whole body, then sits for a treat with his tail sweeping. Sound: a quick body shake, tags jingling, owner says "all done, good job".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lifted up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
