Nail Trim the Easy Way

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm, easy nail trim: seeing the clippers for a treat, a paw touch, a lick mat distraction while one nail tip is trimmed, a gentle file and a cuddle to finish.

TIMELINE

0-5s	Clippers equal treat
5-10s	Paw touch
10-15s	Lick mat trim
15-20s	Gentle file
20-25s	Cuddle after

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Clippers equal treat): Living room on a quiet evening, a warm table lamp on, a soft grey blanket on the floor. The owner shows small puppy nail clippers in one hand. The puppy sniffs them and the other hand immediately gives him a treat. Then the clippers are set down. Sound: quiet room, owner says softly "clippers mean treats". 5-10s (Paw touch): Same living room, warm lamp light, grey blanket. The owner gently holds one of the puppy's big front paws and touches the closed clippers to a nail for a second. He watches calmly and gets another tiny treat. The clippers are set back down on the blanket. Sound: soft rustling, owner whispers "easy, good boy". 10-15s (Lick mat trim): Living room, warm lamp light. A rubber lick mat smeared with wet puppy food lies on the blanket. The puppy licks it happily while the owner's hands gently hold one paw and snip only the very tip of a single nail. Sound: busy licking, one small click, owner says "that's it". 15-20s (Gentle file): Same blanket, warm lamp light. The puppy keeps licking the mat while the owner holds his paw and smooths the nail tip with a small dog nail file in short, gentle strokes. His tail wags slowly on the blanket. The lick mat is almost licked clean. Sound: soft filing, licking, quiet house. 20-25s (Cuddle after): Living room, warm lamp light in the evening. The puppy climbs into the owner's lap on the blanket and the owner wraps both arms around him. He yawns widely and rests his head on the owner's arm, eyes closing. The clippers and file lie forgotten on the blanket nearby. Sound: big squeaky yawn, owner whispers "one nail a night".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Clippers equal treat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
