After-Dinner Puppy Zoomies

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Right after dinner the puppy gets a burst of wild energy: he licks his bowl clean, crouches, races laps around the living room, skids on the rug and then crashes into a nap.

TIMELINE

0-5s	Licking the bowl
5-10s	The wind-up
10-15s	Laps around the couch
15-20s	Rug skid
20-25s	Sudden crash

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Licking the bowl): Small kitchen in the evening, ordinary ceiling light on, grey vinyl floor, a dish towel hanging from the oven handle. The puppy licks the last bits from a small steel bowl, pushing it a few inches across the floor with his nose while his tail wags slowly. The owner's socked feet stand nearby. Sound: bowl scraping on the floor, licking, fridge humming. 5-10s (The wind-up): Living room in the evening, two floor lamps on, beige carpet, a brown couch with a folded blanket. The puppy suddenly drops his front end low with his rump up, eyes wide and ears flopping, then bolts off in a tight circle around the low wooden coffee table, back legs tucking under him. Sound: paws thumping on carpet, owner laughs "here we go". 10-15s (Laps around the couch): Same living room, warm lamp light, toys scattered on the carpet. The puppy races along the front of the couch, disappears behind it and pops out the other side, then does the same loop again, ears inside out and tongue flapping. The owner sits on the floor, only knees and hands visible, clapping softly. Sound: fast thudding paws, small excited yips, owner laughing. 15-20s (Rug skid): Hallway beside the living room in the evening, ceiling light on, smooth wooden floor with a small striped runner rug. The puppy charges onto the rug, it slides under him and bunches up, and he scrambles to keep his footing with oversized paws before trotting back, completely unbothered, tail high. Sound: rug swishing, claws scrabbling on wood, owner says "easy, buddy". 20-25s (Sudden crash): Back in the living room, warm lamp light, beige carpet. The puppy wobbles over to the folded blanket on the floor by the couch, turns once, and flops down on his side. His breathing slows, his eyes close and one back paw twitches. The owner's hand gently strokes his round belly. Sound: soft panting slowing down, a tiny sigh, quiet TV murmur in the background.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Licking the bowl

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Small kitchen in the evening, ordinary ceiling light on, grey vinyl floor, a dish towel hanging from the oven handle. The puppy licks the last bits from a small steel bowl, pushing it a few inches across the floor with his nose while his tail wags slowly. The owner's socked feet stand nearby. Sound: bowl scraping on the floor, licking, fridge humming.

Clip 2 | 5-10s | The wind-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room in the evening, two floor lamps on, beige carpet, a brown couch with a folded blanket. The puppy suddenly drops his front end low with his rump up, eyes wide and ears flopping, then bolts off in a tight circle around the low wooden coffee table, back legs tucking under him. Sound: paws thumping on carpet, owner laughs "here we go".

Clip 3 | 10-15s | Laps around the couch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
