The Little Shoe Thief

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The puppy sneaks a sneaker from the shoe pile by the door and proudly parades it around, until the owner trades it for a puppy chew toy before he can chew it.

TIMELINE

0-5s	Eyeing the shoes
5-10s	The grab
10-15s	Victory parade
15-20s	The trade
20-25s	Chewing the right thing

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Eyeing the shoes): Front entryway on a bright afternoon, daylight from a small window beside the door, grey tile floor, a messy pile of sneakers and sandals on a rubber mat. The puppy creeps up to the pile, sniffs a white sneaker with a long lace, then glances back toward the camera with his ears flat. Sound: quiet house, soft sniffing, owner whispers "what are you doing?". 5-10s (The grab): Same entryway, afternoon daylight, grey tile. The puppy grabs the white sneaker by its heel, the shoe almost as big as his head, and backs away from the pile, tripping over the dangling lace. He holds it high and wobbles off toward the hallway, tail wagging fast. Sound: sneaker scuffing on tile, claws clicking, owner laughs. 10-15s (Victory parade): Living room in the afternoon, sunlight through sheer curtains, light wooden floor, a grey couch. The puppy trots a proud loop around the room with the sneaker in his mouth, the lace trailing behind him, head held high. He has not started chewing it, just carrying his prize. Sound: thumping little paws, lace dragging on the floor, owner says "look at you". 15-20s (The trade): Same living room, afternoon daylight. The owner kneels down, only arms and knees visible, and holds out a soft blue rubber puppy chew toy. The puppy stops, looks at the toy, drops the sneaker on the wooden floor and takes the chew toy instead. The owner's other hand picks up the shoe. Sound: sneaker thudding down, squeaky toy squeak, owner says "good trade, good boy". 20-25s (Chewing the right thing): Living room floor in afternoon sunlight, light wooden boards. The puppy lies on his belly holding the blue rubber chew toy between his big front paws, happily gnawing on it. In the background the white sneaker sits safely on a high shelf by the door, out of reach. Sound: soft chewing, a little squeak, owner sighs "shoes go up from now on".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Eyeing the shoes

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Front entryway on a bright afternoon, daylight from a small window beside the door, grey tile floor, a messy pile of sneakers and sandals on a rubber mat. The puppy creeps up to the pile, sniffs a white sneaker with a long lace, then glances back toward the camera with his ears flat. Sound: quiet house, soft sniffing, owner whispers "what are you doing?".

Clip 2 | 5-10s | The grab

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
