Puppy vs His Own Shadow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

On a sunny morning on the patio the puppy discovers his own shadow and spends the whole video stalking, pouncing on and barking at it before giving up in the shade.

TIMELINE

0-5s	Shadow discovery
5-10s	The pounce
10-15s	Chasing it
15-20s	Barking at it
20-25s	Retreat to the shade

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Shadow discovery): Concrete back patio on a sunny morning, clear blue sky, a few potted plants and a folded camping chair. The puppy walks across the warm concrete, then suddenly stops and stares down at his dark shadow stretched out in front of him, head lowered, ears forward, tail frozen. Sound: birds chirping, distant lawn mower, owner whispers "uh oh". 5-10s (The pounce): Same sunny patio, bright morning light, cracked grey concrete. The puppy wiggles his rump and pounces with both front paws onto his shadow, then looks confused when it moves with him. He pounces again, a little sideways, and nearly tips over. Sound: paws slapping concrete, small grunt, owner chuckling. 10-15s (Chasing it): Patio and the edge of a patchy lawn, strong morning sun. The puppy spins in a small circle trying to catch the shadow at his side, then trots forward fast, glancing down at it the whole time, ears bouncing. The owner's feet in flip-flops stand at the edge of the frame. Sound: quick padding paws, a high puppy yip, birds. 15-20s (Barking at it): Same sunny patio, clear sky. The puppy plants his oversized front paws wide apart, stares down at his shadow, and lets out a few squeaky little barks at it, his whole body bouncing with each one. His tail wags stiffly behind him. Sound: squeaky puppy barks, owner laughing "it's you, silly". 20-25s (Retreat to the shade): Shady corner of the patio under a wooden table, cool grey concrete, morning sunlight bright just beyond. The puppy walks into the shade, looks around where the shadow went, then lies down on the cool concrete with his chin on his paws, panting lightly. Sound: soft panting, birds, owner says "you win this round".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Shadow discovery

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Concrete back patio on a sunny morning, clear blue sky, a few potted plants and a folded camping chair. The puppy walks across the warm concrete, then suddenly stops and stares down at his dark shadow stretched out in front of him, head lowered, ears forward, tail frozen. Sound: birds chirping, distant lawn mower, owner whispers "uh oh".

Clip 2 | 5-10s | The pounce

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
