Falling Asleep While Eating

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

After a long morning of play the puppy starts his lunch but slowly runs out of energy, nodding off right over the bowl until he finally falls asleep beside it.

TIMELINE

0-5s	Hungry start
5-10s	Slowing down
10-15s	The nod
15-20s	Chin in the bowl
20-25s	Lights out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Hungry start): Kitchen at midday, bright daylight from a window over the sink, light beige tile floor, a small water bowl on a mat. The puppy eats soaked kibble from a shallow steel bowl, chewing eagerly at first, his ears falling forward around the bowl. Sound: kibble crunching, bowl tapping on tile, a clock ticking. 5-10s (Slowing down): Same kitchen, midday daylight, beige tile. The puppy keeps eating but much slower, chewing one piece at a time, his eyelids getting heavy. He sits down mid-bite, back legs sliding out to one side, still facing the bowl. The owner's socked feet stand nearby. Sound: slow crunching, owner whispers "you okay, bud?". 10-15s (The nod): Close view at floor level in the kitchen, soft daylight, beige tile. The puppy's head slowly droops toward the bowl, his nose almost touching the kibble, then he jerks back up and blinks, trying to stay awake, a piece of kibble stuck to his lip. Sound: quiet kitchen, owner muffling a laugh. 15-20s (Chin in the bowl): Same kitchen floor, midday light from the window. The puppy lies down in front of the bowl and rests his chin right on its edge, eyes closing, a few kibbles still inside. His big front paws stretch out on the tile on either side. Sound: soft breathing, a tiny snore, fridge humming. 20-25s (Lights out): Kitchen floor in soft midday daylight, beige tile. The puppy is fully asleep on his side next to the bowl, belly rising and falling, one ear flipped inside out. The owner's hand slowly slides the bowl away and lays a small fleece blanket beside him. Sound: deep puppy snoring, owner whispers "lunch can wait".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hungry start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Kitchen at midday, bright daylight from a window over the sink, light beige tile floor, a small water bowl on a mat. The puppy eats soaked kibble from a shallow steel bowl, chewing eagerly at first, his ears falling forward around the bowl. Sound: kibble crunching, bowl tapping on tile, a clock ticking.

Clip 2 | 5-10s | Slowing down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
