# Stuck Under the Chair

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

The puppy chases his ball under a low armchair, gets a little stuck, wiggles and whines, then squirms out by himself with the ball, and the owner lifts the chair to show there is no harm done.

## TIMELINE

| | |
|---|---|
| **0-5s** | Ball rolls under |
| **5-10s** | Halfway in |
| **10-15s** | Little whine |
| **15-20s** | Wiggling out |
| **20-25s** | Chair lifted |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Ball rolls under): Living room in the afternoon, soft daylight through the window, light wooden floor, a low green armchair with short legs. The owner's hand rolls a small rubber ball and it bounces under the armchair. The puppy runs after it and pushes his head underneath. Sound: ball bouncing, claws on wood, owner says "oops". 5-10s (Halfway in): Same living room, afternoon daylight. Only the puppy's back half sticks out from under the low green armchair, his round rump and tail wagging, back paws pushing against the wooden floor as he squeezes further in toward the ball. The owner kneels right beside the chair. Sound: muffled scrabbling, tail thumping on the chair, owner laughing. 10-15s (Little whine): Floor-level view of the armchair in afternoon light, wooden floor. The puppy's face peeks out from under the chair's front edge, the ball beside his paws, and he lets out a small whine, looking at the camera. He is calm and unhurt, just puzzled about turning around. Sound: a short puppy whine, owner says "you're okay, come on out". 15-20s (Wiggling out): Same living room, soft daylight. The puppy wiggles his shoulders side to side and scoots forward on his belly, popping out from under the front of the armchair with the rubber ball in his mouth. He shakes his whole body, ears flapping. Sound: wiggling scuffs, a big body shake, owner cheering "you did it". 20-25s (Chair lifted): Living room in afternoon daylight, wooden floor. The owner's two hands tilt the green armchair up and back, showing the empty space underneath with only a little dust and an old sock. The puppy trots over, sniffs the spot proudly and wags, the ball still in his mouth. Sound: chair creaking, sniffing, owner says "no more balls under there".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Ball rolls under

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room in the afternoon, soft daylight through the window, light wooden floor, a low green armchair with short legs. The owner's hand rolls a small rubber ball and it bounces under the armchair. The puppy runs after it and pushes his head underneath. Sound: ball bouncing, claws on wood, owner says "oops".

### Clip 2 | 5-10s | Halfway in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
