He Wants to Chew Everything

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Teething puppy tries to mouth a chair leg, a remote control and a pillow tassel, and every time the owner swaps in a puppy chew toy before he actually chews, ending with a frozen chew.

TIMELINE

0-5s	Chair leg attempt
5-10s	Rope toy instead
10-15s	Remote spotted
15-20s	Pillow tassel
20-25s	Frozen chew relief

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Chair leg attempt): Dining room in the late afternoon, warm window daylight, wooden floor, a wooden chair at a table. The puppy lies down beside the chair, sniffs a chair leg and opens his mouth toward it. The owner's hand instantly slides a rope chew toy between him and the leg. Sound: sniffing, owner says "nope, try this". 5-10s (Rope toy instead): Same dining room, late afternoon light, wooden floor. The puppy grabs the knotted rope toy and tugs it, growling softly in play, his tail wagging. The owner's hand holds the other end gently, letting him win after a moment. He trots off proudly with it. Sound: playful puppy growl, rope creaking, owner laughing. 10-15s (Remote spotted): Living room in late afternoon, lamp switched on, beige carpet, a dark remote control fallen on the floor by the couch. The puppy trots to it and lowers his mouth. The owner's hand scoops the remote away and offers a soft rubber teething ring instead. Sound: paws on carpet, owner says "not that one, buddy". 15-20s (Pillow tassel): Same living room, warm lamp light. A cushion with little tassels has fallen to the carpet. The puppy noses a tassel and opens his mouth, and the owner's hand lifts the cushion back onto the couch and taps a rubber chew toy on the floor in front of him. Sound: cushion rustling, rubber toy tapping, owner sighing with a laugh. 20-25s (Frozen chew relief): Kitchen in the early evening, ceiling light on, beige tile floor. The owner's hand gives the puppy a frozen damp washcloth twisted into a knot, a common teething soother. He lies on the cool tile chewing it happily, eyes half closed. Sound: soft chewing, relieved puppy sigh, owner says "better?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Chair leg attempt

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Dining room in the late afternoon, warm window daylight, wooden floor, a wooden chair at a table. The puppy lies down beside the chair, sniffs a chair leg and opens his mouth toward it. The owner's hand instantly slides a rope chew toy between him and the leg. Sound: sniffing, owner says "nope, try this".

Clip 2 | 5-10s | Rope toy instead

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
