Tiny Puppy Sneezes

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A compilation of the puppy's tiniest sneezes in one day: sniffing grass, flour dust, a feather, a flower and a fuzzy blanket, each followed by a confused look.

TIMELINE

0-5s	Grass tickle
5-10s	Kitchen dust
10-15s	Feather sniff
15-20s	Flower bed
20-25s	Blanket fluff

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Grass tickle): Backyard on a sunny morning, patchy green lawn with clover, a wooden fence. The puppy pushes his nose deep into a clump of tall grass, then rears back and gives a tiny sneeze that shakes his whole head, ears flopping. Sound: tiny squeaky sneeze, birds, owner gasps "bless you". 5-10s (Kitchen dust): Kitchen at midday, daylight through the window, beige tile floor. A small dusting of flour has fallen near the counter. The puppy sniffs it, sneezes twice in a row, and sits down looking surprised with a white speck on his nose. Sound: two little sneezes, owner laughing, a cupboard closing. 10-15s (Feather sniff): Front porch in the afternoon, soft daylight, grey painted boards. A small white feather lies on the porch. The puppy sniffs it closely, it flutters against his nose, and he sneezes so hard he hops back a step. Then he stares at the feather, confused. Sound: breeze, a tiny sneeze, owner says "oh my goodness". 15-20s (Flower bed): Garden edge in late afternoon, warm natural daylight, a low bed of yellow marigolds by a wooden fence. The puppy sniffs a marigold, sneezes, then sneezes again and shakes his head, licking his nose. The owner's hand stays right beside him. Sound: two sneezes, bees humming, owner laughing softly. 20-25s (Blanket fluff): Living room in the evening, ordinary lamp light, a fuzzy cream blanket on the carpet. The puppy buries his face in the soft blanket, wiggles, then pops up with a little sneeze and stares at the camera with a puzzled expression, ears askew. Sound: blanket rustling, one tiny sneeze, owner says "that's five today".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Grass tickle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
