Head Tilt Champion

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The owner tests the puppy with different sounds and words and he answers every one with a bigger head tilt: a whistle, the word walk, a squeaker, a crinkly bag and his name.

TIMELINE

0-5s	Soft whistle
5-10s	The word walk
10-15s	Hidden squeaker
15-20s	Crinkly bag
20-25s	Reward time

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Soft whistle): Living room in the morning, daylight from a big window, light grey rug, a wooden coffee table. The puppy sits on the rug facing the camera. The owner gives a soft whistle and the puppy tilts his head far to one side, floppy ears shifting. Sound: a soft whistle, quiet room, owner giggles. 5-10s (The word walk): Same living room, morning daylight. The puppy is still sitting on the rug. The owner says a single word and the puppy tilts his head the other way, eyes bright, then shuffles his front paws in place with his tail sweeping the rug. Sound: owner asks "want to go for a walk?", tail swishing on the rug. 10-15s (Hidden squeaker): Living room, morning light, grey rug. The owner's hand, held just out of the puppy's view behind their knee, squeezes a small squeaky toy. The puppy's head tilts so far that he nearly loses his balance, then he looks around for the noise. His tail wags slowly. Sound: a quick squeak, owner laughing quietly. 15-20s (Crinkly bag): Same living room, daylight. The owner's hand crinkles a small treat bag. The puppy tilts his head left, then right, ears perking as high as floppy puppy ears can go, and leans forward with his nose twitching. He licks his lips hopefully. Sound: plastic bag crinkling, sniffing, owner says "what's this?". 20-25s (Reward time): Living room in morning daylight, grey rug. The owner says his name and he gives one last deep head tilt, then the owner's hand offers a small puppy training treat on an open palm. He gently takes it and licks his lips, tail wagging. Sound: owner says "say his name" and laughs, crunch, tail thumping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Soft whistle

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Living room in the morning, daylight from a big window, light grey rug, a wooden coffee table. The puppy sits on the rug facing the camera. The owner gives a soft whistle and the puppy tilts his head far to one side, floppy ears shifting. Sound: a soft whistle, quiet room, owner giggles.

Clip 2 | 5-10s | The word walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. Same living room, morning daylight. The puppy is still sitting on the rug. The owner says a single word and the puppy tilts his head the other way, eyes bright, then shuffles his front paws in place with his tail sweeping the rug. Sound: owner asks "want to go for a walk?", tail swishing on the rug.

Clip 3 | 10-15s | Hidden squeaker

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
