Pouncing on Leaves

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

On a breezy autumn day the puppy hunts down blowing leaves in the backyard, pouncing, chasing, diving into a small leaf pile and coming out covered in them.

TIMELINE

0-5s	Leaf spotted
5-10s	The pounce
10-15s	Chasing the wind
15-20s	Into the pile
20-25s	Leafy puppy

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 10-week-old male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, warm tan legs and face, a brown nose, light amber eyes, fluffy soft puppy coat, oversized paws and floppy ears, wearing a small light blue collar. 0-5s (Leaf spotted): Backyard on a breezy autumn afternoon, overcast daylight, patchy lawn scattered with orange and yellow leaves, a wooden fence and a rake leaning on it. The puppy freezes, staring at a single leaf skittering across the grass, rump wiggling. His ears push forward. Sound: wind gusts, dry leaves scraping, owner whispers "get it". 5-10s (The pounce): Same backyard, overcast autumn light. The puppy leaps forward and lands with both front paws on the leaf, then sniffs under his paws to check he caught it. He lifts one paw, the leaf blows away, and he spins after it. Sound: crunch of leaves, puppy grunt, owner laughing. 10-15s (Chasing the wind): Backyard lawn in grey autumn daylight, leaves tumbling in the breeze. The puppy bounces after several leaves at once, changing direction every second, ears flapping and tail wagging, clumsy and delighted. The owner's boots stand at the edge of the frame. Sound: wind, leaves rustling, excited little yips. 15-20s (Into the pile): Corner of the backyard by the fence, overcast light, a small low pile of dry leaves the owner raked. The puppy runs and hops right into the pile, disappearing up to his shoulders, leaves flying up around him. The owner stands right beside the pile. Sound: loud crunchy rustling, owner cheering "whoa". 20-25s (Leafy puppy): Same backyard corner in grey autumn daylight. The puppy pops out of the leaf pile with little leaves stuck in his fluffy coat and one on his head, then sits and looks at the camera. The owner's hand picks a leaf off his ear. Sound: leaves crackling, soft panting, owner says "you've got some on you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
