Week by Week From 8 to 16 Weeks

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The same spot by the back door filmed every two weeks shows how fast he grows: at 8, 10, 12, 14 and 16 weeks old, sitting on the same doormat next to the same plush toy.

TIMELINE

0-5s	8 weeks old
5-10s	10 weeks old
10-15s	12 weeks old
15-20s	14 weeks old
20-25s	16 weeks old

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, tan legs, a brown nose and amber eyes, wearing a light blue collar, shown at a different age in each clip as the scene describes. 0-5s (8 weeks old): Back door of the house in the morning, natural daylight from the glass door, beige tile floor and a brown doormat. The puppy at 8 weeks old is tiny and round with very floppy ears, sitting wobbly on the doormat next to a plush duck toy bigger than his head. Sound: quiet house, soft puppy whimper, owner says "8 weeks". 5-10s (10 weeks old): Same back door spot, morning daylight, brown doormat on beige tile, same plush duck. The puppy at 10 weeks old is a little bigger and fluffier, sitting more steadily, ears still floppy, chewing on the duck's wing for a moment before looking up. Sound: soft chewing, owner says "10 weeks". 10-15s (12 weeks old): Same back door, morning light through the glass, beige tile, brown doormat, plush duck. The puppy at 12 weeks old now fills most of the doormat, his legs longer, ears starting to lift a little at the base. He sits nicely and the duck looks smaller beside him. Sound: tail thumping on the mat, owner says "12 weeks". 15-20s (14 weeks old): Same back door spot, natural morning daylight, brown doormat. The puppy at 14 weeks old is taller and leaner, paws even bigger, one ear half standing. He sits on the doormat, the plush duck now looking small next to his front paws. Sound: owner says "14 weeks", a playful huff. 20-25s (16 weeks old): Same back door, morning daylight through the glass, beige tile. The puppy at 16 weeks old is lanky, his body hanging over the edges of the doormat, both ears trying to stand. He picks up the plush duck easily and trots out of frame with it. Sound: claws clicking, owner says "16 weeks, where did my baby go?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | 8 weeks old

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, tan legs, a brown nose and amber eyes, wearing a light blue collar, shown at a different age in each clip as the scene describes. Back door of the house in the morning, natural daylight from the glass door, beige tile floor and a brown doormat. The puppy at 8 weeks old is tiny and round with very floppy ears, sitting wobbly on the doormat next to a plush duck toy bigger than his head. Sound: quiet house, soft puppy whimper, owner says "8 weeks".

Clip 2 | 5-10s | 10 weeks old

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, tan legs, a brown nose and amber eyes, wearing a light blue collar, shown at a different age in each clip as the scene describes. Same back door spot, morning daylight, brown doormat on beige tile, same plush duck. The puppy at 10 weeks old is a little bigger and fluffier, sitting more steadily, ears still floppy, chewing on the duck's wing for a moment before looking up. Sound: soft chewing, owner says "10 weeks".

Clip 3 | 10-15s | 12 weeks old

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real male liver-and-tan German Shepherd puppy with a chocolate-brown saddle, tan legs, a brown nose and amber eyes, wearing a light blue collar, shown at a different age in each clip as the scene describes. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
